Fearless Entertaining John David Williams 2006-09-15 Entertaining can be intimidating not only for the novice, but the seasoned host as well. *Fearless Entertaining*, with more than four hundred beautiful photographs and easy-to-follow tips, covers the essential elements of any successful gathering while emphasizing the importance of staying relaxed, having fun, and enjoying your own event. You will find yourself often referring to this book as you plan and create each celebration, including direction on flowers, invitations, table settings, menus, and recipes.

Gather As You Go Carol Lavin Bernick 2018-04 Carol Lavin Bernick's book about lessons learned in her life.

The Carbon Bubble Jeff Rubin 2016-05-17 As the price of oil falls, bestselling author and economist Jeff Rubin takes us to the epicentre of the bursting global carbon bubble, and dares us to imagine a new engine for growth that does not run on oil. For a decade, the vision of Canada's future as an energy superpower has driven the country's political agenda, as well as the fast-paced development of Alberta's oil sands and the push for more pipelines like Keystone XL across the continent to bring that bitumen to market. Anyone who objects to pipelines and tanker-train traffic, north or south of the US border, is labeled a dreamer, or worse—an environmentalist: someone who puts the health of the planet ahead of the economic survival of their neighbours. In *The Carbon Bubble*, Jeff Rubin compellingly shows how an economic vision that rests on oil is dead wrong. Changes in energy markets in the US—where domestic production is booming while demand for oil is shrinking—are quickly turning the oil dream into an economic nightmare. Like U.S. coal stocks, the share values of oil-sands producers have been drastically reduced by falling fuel prices and are increasingly exposed to

the world's efforts to reduce carbon emissions. Rubin argues that there is a lifeline to a better future. The very climate change that will leave much of the country's carbon unburnable could at the same time make some of Canada's other resource assets more valuable: its water and its land. In tomorrow's economy, he argues, Canada won't be an energy superpower, but it has the makings of one of the world's great breadbaskets, as everything from the corn belt to viniculture heads to higher latitudes. And in the global climate that the world's carbon emissions are inexorably creating, growing food will soon be a lot more valuable than mining bitumen.

Why the Left Loses Manwaring, Rob 2018 Around the world, parties of the left and center-left have been struggling, losing ground to right-wing parties and various forms of reactionary populism. This book brings together a range of leading academics and experts on social democratic politics and policy to offer an international, comparative view of the changing political landscape. Using case studies from the United Kingdom, Germany, Spain, France, Australia and New Zealand contributors argue that despite different local and specific contexts, the mainstream center-left is beset by a range of common challenges. Analysis focuses on institutional and structural factors, the role of key individuals, and the atrophy of progressive ideas as interconnected reasons for the current struggles of the center-left.

33 Snowfish Adam Rapp 2011-04-12 "Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable." - Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikeliest of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtles the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic

narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

Death in England Sam Bobrick 1992 Death pays a call to an English household and discovers he's in the wrong place. After apologizing profusely to the near victim, he discovers to his horror that not only can everyone in that household see him but that someone other than he is now performing his task. In an attempt to get to the bottom of things, none other than one of Scotland Yard's finest, Inspector Edward Mirabelle, is brought in to confront the bizarre event, witness a few deaths and hopefully solve what the inspector now describes as his favorite case.

Suriname International Monetary Fund 1997-08-13 This paper reviews economic developments in Suriname during 1994-96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.
