Gantz's Manual of Clinical Problems in Infectious Disease James W. Myers 2012-11-19 Gantz's Manual of Clinical Problems in Infectious Disease Sixth Edition Since publication of the First Edition in 1979, much has changed in the way we view, diagnose, and treat infectious diseases. The Sixth Edition of this respected reference focuses on challenging clinical situations faced by practitioners of all levels who deal with infectious diseases. The latest advances in the field are covered--from descriptions of newly recognized infectious agents, to the latest diagnostic tests and emerging treatments. Topics of interest include: diagnostic and resistance testing in patients with AIDS, management of West Nile virus, malaria in travelers, pacemaker-related infections, needlestick injuries in healthcare workers, antibiotic dosing of obese patients, interpretation of MICs, and planning for bioterrorism defense. Look inside and discover... * Actionable information from respected authors focused on the areas that trainees most often find challenging. * Thoroughly revised and updated content--virtually all chapters are new to this edition. * Selected annotated references focus on papers that provide clinical guidance. * Problem-oriented approach promotes critical thinking. National Safety Tractor and Machinery Operation Program Student Manual Ohio State University 2006-06-30 The need for current and better quality training materials was cited by both certification program instructors and coordinators. In recognition of these shortcomings, the U. S. Department of Agriculture (USDA) funded a major project with Penn State University, The Ohio State University, and the National Safety Council to develop a National Safe Tractor and Machinery Operation Program (NSTMOP). The result is the NSTMOP Student Manual. This manual, including the task sheets, is the primary curriculum resource developed and designed to be used in a variety of instructional settings. The task sheets are divided into 6 sections: introduction; safety basics; agricultural hazards; the tractor; connecting and using implements with the tractor; and material handling (skid steers, ATV, and utility vehicles). There are a total of 77 task sheets, 48 are identified as core topics. Also included are a skills and driving test layout map and evaluation forms.
