Body Images Thomas F. Cash 1990 How does an individual form a body image? Where do the internal representations of one's body image intersect with the external bodily reality? How does a person adjust the image to reflect the changes wrought by aging, disease, deformity, or injury? What is the role of body images in the development of eating disorders and other psychological disorders? What psychotherapeutic and medical procedures facilitate positive body-image changes? In the last two decades, questions such as these have spurred significant progress in the construction of a psychology of physical appearance, transcending disciplinary boundaries to incorporate elements from both the behavioral and biomedical sciences. Because the body-image construct is multidimensional and entails a rich diversity--body image is, more accurately, body-images--the most productive thinking on the topic requires an integration of both objective and subjective foci. Bringing the literature up to date, **BODY IMAGES: DEVELOPMENT, DEVIANCE, AND CHANGE** reviews and elucidates various concepts of body image, body-image development, psychosocially dysfunctional deviations from normal appearance, and methods of facilitating body image change. The book's sixteen chapters are divided into six parts; each chapter has been written by a carefully chosen expert on the topic. The first part provides a historic overview of psychological concepts about the body, and introduces the procedures and problems of assessing body image. Part 2 covers the development of body images, exploring the contrast between "inside" and "outside" images, the sociocultural determinants of body image, and the role of body image in the psychosocial development across the life span. Part 3 explores the divergence and dysfunction of body images: Chapters 6 and 7 offer sensitive observations on the psychosocial impact of deviations from normal appearance such as congenital deformities, disfiguring injuries, and physical disabilities. Chapters 8 and 9 focus on individual of objectively "normal" appearance who suffer body-experience psychopathologies, for example, hypochondria, somatic delusions, eating disorders, and gender identity disorders. Parts 4 and 5 concern the professional interventions that can alter negative or dysfunctional body images. Chapters 13 through 15 discuss the nature of the psychosocial change brought about through physical or psychological interventions, the integration of the changes into the sense of self, and the maintenance of the changes. The book concludes with a chapter by the editors, concisely summarizing the principal themes interwoven through the book. **BODY IMAGES: DEVELOPMENT, DEVIANCE, AND CHANGE** had its genesis in the authors' first meeting. Though both are scientists and clinical practitioners, Cash works primarily as a researcher in an academic department of psychology and Pruzinsky works largely as a clinician in a medical school department of plastic surgery. They each felt a need to understand and incorporate the perspectives and experiences of each others work. This volume will be of enormous value to others with the same need: those studying and researching still unresolved and unexplored issues of body image, those who need an understanding of the issues of body image for their psychotherapeutic or medical practices. This book will be invaluable to all those whose work involves issues of human appearance.

Zia Summer Rudolfo Anaya 2015-06-02 A Chicano PI hunts his cousin's killer in "a compelling thriller [with] a deep-seated respect for the traditions of a people and a culture" (Booklist). The great-grandson of a legendary lawman and gunfighter, thirty-year-old Sonny Baca hopes he possesses even a tenth of El Bisabuelo's courage. But instead of cleaning up New Mexico by hunting down dangerous desperadoes, the struggling PI looks for missing persons and deadbeat husbands. The game changes when his cousin Gloria—the first woman Sonny ever loved—is brutally slain. Her corpse is found drained of blood. A zia sun sign, the symbol on the New Mexican flag, is carved on her stomach. Gloria's husband, Frank Dominic, a politician making a run for mayor of Albuquerque, has a powerful motive for murder. But Gloria wasn't the first victim. A year earlier, another woman was slain in the exact same way. Is a serial killer on the loose? Or is this the handiwork of some satanic cult? Feeling his cousin's spirit crying out for justice, Sonny and

his girlfriend begin a search that takes them across New Mexico's polluted South Valley to an environmental compound in the mountains. As Sonny moves closer to the truth, he uncovers a chilling connection between his past and a very real and present evil . . .

The Painter of Modern Life Charles Pierre Baudelaire 2021-09-10 Poet, esthete and hedonist, Baudelaire was also one of the most revolutionary art critics of his time. Here he delves into beauty, fashion, dandyism, the purpose of art, and the role of the artist, and he describes the painter who, in his opinion, more fully expresses the drama of modern life.

Doing Violence, Making Race Mattias Smångs 2017-03-27 The subject of lynching has spawned a vast body of important research, but this research suffers from important blind spots and disjunctures. By broadening the scope of research problem formulation, staking out new theoretical-analytical tracks, and drawing upon recent innovations in statistical methodology to analyze newer and more detailed data, *Doing Violence, Making Race* offers an innovative contribution to our understanding of this grim subject matter and its place within the broader history and sociology of US race relations. Indeed, this volume demonstrates how different forms of lynching fed off and into the formation of the racial group boundaries and identities at the foundation of the Jim Crow system. The book also demonstrates that as dominant white racial ideologies and conceptions took an extremist turn, lethal mob violence against African Americans increasingly assumed the form of public lynchings, serving to transform symbolic representations of blacks into social stigma and exclusion. Finally, Smångs also explores how public lynchings were expressive as well as generative of the collective white racial identity mobilized through the southern branch of the Democratic Party, whilst private lynchings were related to whites' interracial status and social identity concerns on the interpersonal level. The most complete and complex scholarly treatment of this grim subject to date, this enlightening volume will be of interest to undergraduate and graduate students interested in areas such as Sociology, Political Science, History, Criminology/Criminal Justice, Anthropology, American Studies, African-American and Whiteness Studies.

Medieval Illuminators and Their Methods of Work Jonathan James Graham Alexander 1992-01-01 Who were the medieval illuminators? How were their hand-produced books illustrated and decorated? In this beautiful book Jonathan Alexander presents a survey of manuscript illumination throughout Europe from the fourth to the sixteenth century. He discusses the social and historical context of the illuminators' lives, considers

their methods of work, and presents a series of case studies to show the range and nature of the visual sources and the ways in which they were adapted, copied, or created anew. Alexander explains that in the early period, Christian monasteries and churches were the main centers for the copying of manuscripts, and so the majority of illuminators were monks working in and for their own monasteries. From the eleventh century, lay scribes and illuminators became increasingly numerous, and by the thirteenth century, professional illuminators dominated the field. During this later period, illuminators were able to travel in search of work and to acquire new ideas, they joined guilds with scribes or with artists in the cities, and their ranks included nuns and secular women. Work was regularly collaborative, and the craft was learned through an apprenticeship system. Alexander carefully analyzes surviving manuscripts and medieval treatises in order to explain the complex and time-consuming technical processes of illumination - its materials, methods, tools, choice of illustration, and execution. From rare surviving contracts, he deduces the preoccupation of patrons with materials and schedules. Illustrating his discussion with examples chosen from religious and secular manuscripts made all over Europe, Alexander recreates the astonishing variety and creativity of medieval illumination. His book will be a standard reference for years to come.

The Philobiblon Richard De Bury 2019-06-12 "Will always hold an honorable place for bibliophiles." — The University of Chicago Press One of the earliest treatises on the value of preserving neglected manuscripts, building a library, and book collecting, Richard De Bury's *The Philobiblon* was written in 1345 and circulated widely in manuscript form for over a century. The first printed edition appeared in Cologne in 1473, and several others soon followed as the invention of the printing press spread throughout the late Medieval world. The chapter titles of this legendary work reflect its nature, combining the author's love for and commitment to the importance of books and the knowledge they contain with thoughts on collecting them, lending them, teaching with them, and simply enjoying them: "That the Treasure of Wisdom is chiefly contained in books," "What we are to think of the price in the buying of books," "Who ought to be special lovers of books," and "Of the manner of lending all our books to students." The Prologue ends with the following thought: "And this treatise (divided into twenty chapters) will clear the love we have had for books from the charge of excess, will expound the purpose of our intense devotion, and will narrate more clearly than light all the circumstances of our undertaking. And because it principally treats of the love of books, we have chose after the fashion of the ancient Romans fondly to name it by a Greek word, *Philobiblon*." This volume offers modern bibliophiles a splendid edition of one of the first books ever to study, define, and, above all, praise their passion: the all-encompassing love of books.

Paul and Virginia Jacques-Henri-Bernardin de Saint-Pierre 1818 Classic text republished as an e-book.

Depicting the Late Ottoman Empire in Turkish Autobiographies Philipp Wirtz 2017-03-16 The period between the 1880s and the 1920s was a time of momentous changes in the Ottoman Empire. It was also an age of literary experiments, of which autobiography forms a part. This book analyses Turkish autobiographical narratives describing the part of their authors' lives that was spent while the Ottoman Empire still existed. The texts studied in this book were written in the cultural context of the Turkish Republic, which went to great lengths to disassociate itself from the empire and its legacy. This process has only been criticised and partially reversed in very recent times, the resurging interest in autobiographical texts dealing with the "old days" by the Turkish reading public being part of a wider, renewed regard for Ottoman legacies. Among the analysed texts are autobiographies by writers, journalists, soldiers and politicians, including classics like Halide Edip Adivar and Şevket Süreyya Aydemir, but also texts by authors virtually unknown to Western readers, such as Ahmed Emin Yalman. While the official Turkish republican discourse went towards a dismissal of the imperial past, autobiographical narratives offer a more balanced picture. From the earliest memories and personal origins of the authors, to the conflict and violence that overshadowed private lives in the last years of the Ottoman Empire, this book aims at showing examples of how the authors painted what one of them called "images of a past world."

The Salon of 1846 Charles Baudelaire 2021-04-27 In his introduction to Charles Baudelaire's *Salon of 1846*, the renowned art historian Michael Fried presents a new take on the French poet and critic's ideas on art, criticism, romanticism, and the paintings of Delacroix. Charles Baudelaire, considered a father of modern poetry, wrote some of the most daring and influential prose of the nineteenth century. Prior to publishing international bestseller *Les Fleurs du mal* (1857), he was already notable as a forthright and witty critic of art and literature. Captivated by the Salons in Paris, Baudelaire took to writing to express his theories on modern art and art philosophy. The *Salon of 1846* expands upon the tenets of Romanticism as Baudelaire methodically takes his reader through paintings by Delacroix and Ingres, illuminating his belief that the pursuit of the ideal must be paramount in artistic expression. Here we also see Baudelaire caught in a fundamental struggle with the urban commodity of capitalism developing in Paris at that time. Baudelaire's

text proves to be a useful lens for understanding art criticism in mid-nineteenth-century France, as well as the changing opinions regarding the essential nature of Romanticism and the artist as creative genius. Acclaimed art historian and art critic Michael Fried's introduction offers a new reading of Baudelaire's seminal text and highlights the importance of his writing and its relevance to today's audience.

Meaning in the Visual Arts Erwin Panofsky 1993 Since its original publication, Erwin Panofsky's *Meaning in the Visual Arts* has been standard reading for students of art history. It is both an introduction to the study of art and, for those with more specialized interests, a profound discussion of art and life in the Middle Ages and Renaissance. Panofsky's historical technique reveals an abundance of detail, detail he skillfully relates to the life and work of individual painters and their times. The papers in this volume represent a cross-section of Panofsky's major work. Included are selections from his well-known *Studies in Iconology* and *The Life and Art of Albrecht Durer*, plus an introduction and an epilogue--*The History of Art as a Humanistic Discipline* and *Three Decades of Art History in the United States: Impressions of a Transplanted European*--as well as pieces written especially for this collection. All display Panofsky's vast erudition and deep commitment to a humanistic conception of art and art history.
