Madame Bovary (New Edition)

Gustave Flaubert 2019-06-28 Madame Bovary is the French writer Gustave Flaubert's debut novel. The story focuses on a doctor's wife, Emma Bovary, who has adulterous affairs and lives beyond her means in order to escape the banalities and emptiness of provincial life. Though the basic plot is rather simple, even archetypal, the novel's true art lies in its details and hidden patterns. Flaubert was a notorious perfectionist and claimed always to be searching

for le mot juste ("the precise word"). Long established as one of the greatest novels ever written, the book has often been described as a "perfect" work of fiction. Henry James writes: "Madame Bovary has a perfection that not only stamps it, but that makes it stand almost alone; it holds itself with such a supreme unapproachable assurance as both excites and defies judgment." Giorgio de Chirico said that in his opinion "from the narrative point of view, the most perfect book is Madame Bovary by Flaubert".

The City of Tomorrow and Its
Planning Le Corbusier

2013-04-09 In this 1929

classic, the great architect Le Corbusier turned from the design of houses to the planning of cities, surveying urban problems and venturing bold new solutions. The book shocked and thrilled a world already deep in the throes of the modern age. Today it is revered as a work that, quite literally, helped to shape our world. Le Corbusier articulates concepts and ideas he would put to work in his city planning schemes for Algiers, São Paulo, Rio de Janeiro, Buenos Aires, Barcelona, Geneva, Stockholm, and Antwerp, as well as schemes for a variety of structures from a museum in Tokyo to the United Nations buildings. The influence it exerted on a new generation of architects is now legendary. The City of To-morrow and Its Planning characterizes

European cities as a chaos of poor design, inadequate housing, and inefficient transportation that grew out of the unplanned jumble of medieval cities. Developing his thesis that a great modern city can only function on a basis of strict order, Le Corbusier presents two imposing schemes for urban reconstruction — the "Voisin" scheme for the center of Paris, and his more developed plans for the "City of Three Million Inhabitants," which envisioned, among other things, 60-story skyscrapers, set well apart, to house commercial activities, and residential housing grouped in great blocks of "villas." For those who live in cities as well as anyone interested in their planning, here is a probing survey of the problems of modern urban life and a master architect's stimulating vision of how they might be solved, enlivened by the innovative spirit and passionate creativity that distinguished all of Le Corbusier's work.

Madame Bovary Gustave Flaubert 1982-06-01 This

exquisite novel tells the story of one of the most compelling heroines in modern literature-- Emma Bovary. "Madame Bovary has a perfection that not only stamps it, but that makes it stand almost alone; it holds itself with such a supreme unapproachable assurance as both excites and defies judgement." - Henry James Unhappily married to a devoted, clumsy provincial doctor, Emma revolts against the ordinariness of her life by pursuing voluptuous dreams of ecstasy and love. But her sensuous and sentimental desires lead her only to suffering corruption and downfall. A brilliant psychological portrait, Madame Bovary searingly depicts the human mind in search of transcendence. Who is Madame Bovary? Flaubert's answer to this question was superb: "Madame Bovary, c'est moi." Acclaimed as a masterpiece upon its publication in 1857, the work catapulted Flaubert to the ranks of the world's greatest novelists. This volume, with its

fine translation by Lowell Bair, a perceptive introduction by Leo Bersani, and a complete supplement of essays and critical comments, is the indispensable Madame Bovary.

Popular Belief and Practice

G. J. Cuming 2009-01-18 This eighth volume of Studies in Church History contains twenty-six papers read at two recent meetings of the Ecclesiastical History Society. Popular religion, in theory and practice, within established religious forms and outside them, against a background of acceptance or of controversy, is examined in studies ranging from Professor Momigliano's analysis of the attitude of the later Roman historians to Professor Latreille's discussion of popular piety in modern France. A number of papers focus on the attitudes to sanctity and relics in the central Middle Ages. There is also a significant and wide-ranging discussion centred on the theme of the Presidential Address: post-Reformation popular religion both in its

local and general setting.

These contributions clearly demonstrate the significance of current research into social and economic influences upon popular faith, practice and allegiance, and indicate the large areas and difficult problems which require further research.

European Clocks in the J. Paul

Getty Museum Gillian Wilson

2013-08-15 Among the finest examples of European craftsmanship are the clocks produced for the luxury trade in the eighteenth century. The J. Paul Getty Museum is fortunate to have in its decorative arts collection twenty clocks dating from around 1680 to 1798: eighteen produced in France and two in Germany. They demonstrate the extraordinary workmanship that went into both the design and execution of the cases and the intricate movements by which the clocks operated. In this handsome volume, each clock is pictured and discussed in detail, and each movement diagrammed and described. In addition, biographies of the

clockmakers and enamellers are included, as are indexes of the names of the makers, previous owners, and locations.

The Beothuk Saga Bernard Assiniwi
2002-01-16

This astounding novel fully deserves to be called a saga. It begins a thousand years ago in the time of the Vikings in Newfoundland. It is crammed with incidents of war and peace, with fights to the death and long nights of lovemaking, and with accounts of the rise of local clan chiefs and the silent fall of great distant empires. Out of the mists of the past it sweeps forward eight hundred years, to the lonely death of the last of the Beothuk. The Beothuk, of course, were the original native people of Newfoundland, and thus the first North American natives encountered by European

sailors. Noticing the red ochre they used as protection against mosquitoes, the sailors called them "Red-skins," a name that was to affect an entire continent. As a people, they were never understood. Until now. By adding his novelist's imagination to his knowledge as an anthropologist and a historian, Bernard Assiniwi has written a convincing account of the Beothuk people through the ages. To do so he has given us a mirror image of the history rendered by Europeans. For example, we know from the Norse Sagas that four slaves escaped from the Viking settlement at L'Anse aux Meadows. What happened to them? Bernard Assiniwi supplies a plausible answer, just as he perhaps solves the mystery of the Portuguese ships that sailed west in 1501 to catch more Beothuk, and disappeared from the paper records forever. The story of the Beothuk people is told in three parts. "The Initiate" tells of Anin, who made a voyage by canoe around the entire island a thousand years ago,

encountering the strange Vikings with their "cutting sticks" and their hair "the colour of dried grass." His encounters with whales, bears, raiding Inuit and other dangers, and his survival skills on this epic journey make for fascinating reading, as does his eventual return to his home where, with the help of his strong and active wives, he becomes a legendary chief, the father of his people.

The Sense of Decadence in Nineteenth-Century France

Koenraad W. Swart 2013-11-11

"It was the best of times. It was the worst of times. " The famous

open ing sentence of Charles Dickens' Tale of Two Cities can serve as a motto to characterize the mixture of optimism and pessimism with which a large number of nineteenth-century intellectuals viewed the condition of their age. It is nowadays hardly necessary to accentuate the optimistic elements in the nineteenth-century view of history; many recent historians have sharply contrasted the complacency and the great expectations of the past century with the fears and anxieties rampant in our own age. It is often too readily assumed that a hundred years ago all leading thinkers as well as the educated public were addicted to the cult of progress and ignored or minimized those trends of their times that paved the way for the catastrophes of the twentieth century. In the nineteenth century the intoxicating triumphs of modern science undeniably induced the general public to believe that progress was not an accident but a necessity and that evil and immorality would

gradually disappear. Yet fears, misgivings, and anxieties were not as exceptional in the nineteenth century as is often imagined. Such feelings were not restricted to a few dissenting philosophers and poets like Schopenhauer, Kierkegaard, 'Dostoevsky, Baudelaire, and Nietzsche. The Republic of Letters Marc Fumaroli 2018-09-18 A provocative exploration of intellectual exchange across four centuries of European history by the author of When the World Spoke French In this fascinating study, preeminent historian Marc Fumaroli reveals how an imagined "republic" of ideas and interchange fostered the Italian Renaissance, the Enlightenment, and the French Revolution. He follows exchanges among Petrarch, Erasmus, Descartes, Montaigne, and others from the fifteenth through the eighteenth centuries, through revolutions in culture and society. Via revealing portraits and analysis, Fumaroli traces intellectual currents engaged

with the core question of how to live a moral life--and argues that these men of letters provide an example of the exchange of knowledge and ideas that is worthy of emulation in our own time. Combining scholarship, wit, and reverence, this thought-provoking volume represents the culmination of a lifetime of scholarship.

The Afterlives of the Terror

Ronen Steinberg 2019-09-15

The Afterlives of the Terror explores how those who experienced the mass violence of the French Revolution struggled to come to terms with it. Focusing on the Reign of Terror, Ronen Steinberg challenges the presumption that its aftermath was characterized by silence and enforced collective amnesia. Instead, he shows that there

were painful, complex, and sometimes surprisingly honest debates about how to deal with its legacies. As The Afterlives of the Terror shows, revolutionary leaders, victims' families, and ordinary citizens argued about accountability, retribution, redress, and commemoration. Drawing on the concept of transitional justice and the scholarship on the major traumas of the twentieth century, Steinberg explores how the French tried, but ultimately failed, to leave this difficult past behind. He argues that it was the same democratizing, radicalizing dynamic that led to the violence of the Terror, which also gave rise to an unprecedented interrogation of how society is affected by events of enormous brutality. In this sense, the modern question of what to do with difficult pasts is one of the unanticipated consequences of the eighteenth century's age of democratic revolutions. Thanks to generous funding from Michigan State University and its participation in TOME

(Toward an Open Monograph Ecosystem), the ebook editions of this book are available as Open Access (OA) volumes, available on the Cornell University Press website and other Open Access repositories.

The Death of a Nobody Jules Romains 1914 The subject of this modern classic is not a man. "It is an event," says Jules Romains, who is considered "the French Dos Passos." The event starts with the death of Jacques Godard, a man of no importance. It unfolds through his brief survival in the minds of others - the porter of his tenement in Paris, his fellow lodgers, a few acquaintances, his old father, who comes up from the country for the funeral, a young stranger who feels that the dead pass into "a great soul that cannot die." The event expresses Romains's belief in "collective beings," the famous theory of "Unanimism." In dramatizing his theory, Romains developed an advanced motion-picture technique when films were in their infancy, a technique of

group portraits and sudden shifts from scene to scene that keeps this work far ahead of conventional novels. Here, Romains explores the ideas and the devices used in his twenty-seven-volume masterpiece, *Men of Good Will*, which André Maurois calls "the boldest attempt to describe completely his own time that any French novelist has made since Balzac."

Pilgrimage and Holy Space in Late Antique Egypt David Frankfurter 2015-08-27 This volume deals with the origins and rise of Christian pilgrimage cults in late antique Egypt. Part One covers the major theoretical issues in the study of Coptic pilgrimage, such as sacred landscape and shrines' catchment areas, while Part Two examines native Egyptian and Egyptian Jewish pilgrimage practices. Part Three investigates six major shrines, from Philae's diverse non-Christian devotees to the great pilgrim center of Abu Mina and a Thecla shrine on its route. Part Four looks at such diverse pilgrims' rites as oracles, chant, and stational liturgy, while Part Five brings in Athanasius's and an anonymous hagiographer's perspectives on pilgrimage in Egypt. The volume includes

illustrations of the Abu Mina site, pilgrims' ampules from the Thecla shrine, as well as several maps.

The Possession at Loudun

Michel de Certeau 2000-08 It is August 18, 1634. Father Urbain Grandier, convicted of sorcery that led to the demonic possession of the Ursuline nuns of provincial Loudun in France, confesses his sins on the porch of the church of Saint-Pierre, then perishes in flames lit by his own exorcists. A dramatic tale that has inspired many artistic retellings, including a novel by Aldous Huxley and an incendiary film by Ken Russell, the story of the possession at Loudun here receives a compelling analysis from the renowned Jesuit historian Michel de Certeau. Interweaving substantial excerpts from primary historical documents with fascinating commentary, de Certeau shows how the plague of sorceries and possessions in France that climaxed in the events at Loudun both revealed the deepest fears of a society in traumatic flux and accelerated

its transformation. In this tour de force of psychological history, de Certeau brings to vivid life a people torn between the decline of centralized religious authority and the rise of science and reason, wracked by violent anxiety over what or whom to believe. At the time of his death in 1986, Michel de Certeau was a director of studies at the école des hautes études en sciences sociales, Paris. He was author of eighteen books in French, three of which have appeared in English translation as *The Practice of Everyday Life*, *The Writing of History*, and *The Mystic Fable, Volume 1*, the last of which is published by The University of Chicago Press. "Brilliant and innovative. . . . The Possession at Loudun is [de Certeau's] most accessible book and one of his most wonderful."—Stephen Greenblatt (from the Foreword)
