Joe Biden Jules Witcover 2010-10-05 "When I got knocked down by guys bigger than me . . . [my mother] sent me back out and demanded that I bloody their nose so I could walk down the street the next day."—Joe Biden In this, the first definitive biography of Vice President Joe Biden, renowned journalist Jules Witcover examines the fascinating life of a man who, with his tenacity, outspokenness, and charming smile, has shaped Washington politics for the past forty years and who now serves as the forty-seventh vice president of the United States. Raised in the working-class towns of Scranton, Pennsylvania, and Wilmington, Delaware, and with lackluster grades in school and no particular goals other than to play sports or, fleetingly, to become a priest, Biden shocked the nation in 1972 when he became one of the youngest elected senators in U.S. history. From that point forward, he carved a legacy for himself as one of the most respected legislators in the country. Biden's record in Congress was impressive. He chaired three Senate committees, confronted Slobodan Milošević head-on as a war criminal, and conducted the confirmation hearings of Supreme Court justices. After voting for the 2002 Senate resolution to use force in Iraq, he later called for its repeal and became an outspoken critic of the conduct of the war. Yet for all of Biden's achievements in the Senate, his life has been filled with tragedy and countless challenges. Within two months of being elected in 1972, Biden lost his wife, Neilia, and his young daughter in a tragic accident—a loss that brought him to the nadir of despair and shook his resolve to stay in politics. And even after Biden vowed to continue his career, his tenure was marked by two brain aneurysms and career-threatening verbal gaffes. Then, after being considered among the front-runners in the 1988 Democratic presidential primaries, Biden was accused of plagiarism for a speech he made at the Iowa State Fair. He dropped out of the race to the sounds of Washington pundits chattering that the presidency would never be his. Through it all, Biden survived and ran—and eventually dropped out—again in the 2008 primaries. But even with this defeat, Barack Obama recognized Biden's vast experience in domestic and foreign affairs, and selected him to be his running mate. *Joe Biden: A Life of Trial and Redemption* is based on exhaustive research by one of Washington's most prolific journalists. In drawing on numerous exclusive interviews with Biden's confidants and family members, as well as President Obama and Vice President Biden, Witcover has gone beyond conventional biography to track the forces that have shaped a man who, with his plainspoken style and inspiring life story, has resonated with millions of Americans and whose work is now influencing the Obama-Biden administration and shaping America.

Sketches from a Hunter's Album Ivan Turgenev 2020-03-17 Generally thought to be the work that led to the abolishment of serfdom in Russia, "Sketches from a Hunter's Album" is a series of short stories, written in 1852, that gained Turgenev widespread recognition for his unique writing style. These stories were the result of Turgenev's observations while hunting all over Russia, particularly on his abusive mother's estate at Spasskoye. A definitive work of the Russian Realist tradition, this collection of sketches unveils the author's insights on the lives of everyday Russians, from landowners and their peasants, to bailiffs and mournful doctors, to unhappy wives and mothers. Turgenev captures their tragedies and triumphs, losses and loves in a set of stories that condemned the behavior of the ruling class. Considered subversive writing, Turgenev was confined to his mother's estate, yet his "Sketches" opened the eyes of many people of his time, proving him not only an artist but also a social reformer whose abilities ultimately affected the lives of countless Russians. This edition is printed on premium acid-free paper.

Free Radical Chain Reactions in Organic Synthesis William B.

Motherwell 2013-10-22 Written for both the experienced practitioner and the newcomer, this book provides essential guidance to the practical aspects of free radical chain reactions. The book presents tried and tested synthetic schemes as well as a selection of recently developed methods describing rationally designed, highly efficient syntheses giving high yield interconversions of functional groups and carbon*^b1carbon

bond formation under mild, neutral conditions. Written by two experienced practitioners in the field, this volume explodes the myth that free radicals are highly reactive, non-selective intermediates. Contains an extensive introduction discussing principles, advantages, and disadvantages of radical chain reactions Demonstrates functional group interconversions by radical chain reactions Lists carbon*^b1carbon bond formations Presents inter- and intramolecular radical chain reactions Includes many examples and experimental details selected by experienced practitioners in this field

The Merovingian Kingdoms, 450-751 Ian N. Wood 1994 The centuries immediately following the collapse of Roman rule in what is now France are an extraordinarily tangled time that is frequently dismissed as no more than a chaotic prelude to Charlemagne and the Carolingian Dynasty. Ian Wood's aim is to demonstrate that there was more to Merovingian France than fratricidal kinglets, murderous queens, corrupt bishops and otherworldly monastic saints.

Radical Reactions in Organic Synthesis Samir Z. Zard 2003 Samir Zard provides a description of radical reactions and their applications in organic synthesis. This book shows that an with an elementary knowledge of kinetic and some common sense, it is possible to harness radicals into a tremendously powerful tool for solving synthetic problems.

Night and Fog Sylvie Lindeperg 2014 Fran ois Truffaut called *Night and Fog* "the greatest film ever made." But when Alain Resnais finished his documentary, with its depiction of Nazi atrocities, the resistance of the French censors was fierce. A mere decade had passed since the end of the war, and the French public was unprepared to confront the horrors shown in the film--let alone the possibility of French complicity. In fact it would be through *Night and Fog* that many viewers first learned, as film critic Serge Daney put it, "that the worst had only just taken place." An engrossing account of the genesis, production, and legacy of Resnais's incomparable film, this book documents in extraordinary detail how a film that began as a cinematic spin-off of an educational exhibition on "resistance, liberation, and deportation" went on to become a significant

step in the building of a collective consciousness of the tragedy of World War II. Sylvie Lindeperg frames her investigation with the story of historian Olga Wormser-Migot, who played an integral role in the research and writing of *Night and Fog*--and whose slight error on one point gave purchase to the film's detractors and revisionists and Holocaust deniers. Lindeperg follows the travails of Resnais, Wormser-Migot, and their collaborators in a pan-European search for footage, photographs, and other documentation. She uncovers creative use of liberation footage to stand in for daily life of the camps featured to such shocking effect in the film--a finding that raises hotly debated questions about reenactment and witnessing even as it enhances our understanding of the film's provenance and impact. A microhistory of a film that altered the culture it reflected, *Night and Fog* offers a unique interpretation of the interworking of biography, history, politics, and film in one epoch-making cultural moment.

Environmental Impact of Radioactive Releases International Atomic Energy Agency 1995 Proceedings of a symposium, Vienna, 8-12 May 1995. This was the first major IAEA meeting for more than a decade dealing specifically with the transfer of radionuclides in the environment. Its purpose was to review the information that has become available in recent years, notably as a result of the Chernobyl accident but also gained from studies of the discharges from civil and military nuclear facilities in the early nuclear age. This information has been used for improving the reliability of environmental model predictions, and the main results of the IAEA/CEC programme on Validation of Environmental Model Predictions (VAMP) were presented. In addition, progress in the IAEA programme on the International Arctic Seas Assessment Project (IASAP) was summarized.

Mandela Anthony Sampson 2012-01-11 Nelson Mandela, who emerged from twenty-six years of political imprisonment to lead South Africa out of apartheid and into democracy, is perhaps the world's most admired leader, a man whose life has been led with exemplary courage and inspired conviction. Now Anthony Sampson, who has known Mandela since 1951 and has been a close observer of South Africa's political life for the last fifty years, has produced the first authorized biography, the most informed and comprehensive portrait to date of a man whose dazzling image has been difficult to penetrate. With unprecedented access to Mandela's private papers (including his prison memoir, long thought to have been lost), meticulous research, and hundreds of interviews--from Mandela himself to prison warders on Robben Island, from Walter Sisulu and Oliver Tambo to Winnie Mandela and F. W. de Klerk, and many others intimately connected to Mandela's story--Sampson has composed an enlightening and necessary story of the man behind the myth.

The Dispute Pierre Carlet de Chamblain Marivaux 1999-02-26 What if four children had been kept locked away in darkness and complete isolation since birth? What if, tonight, they were to be released? How would bodies and minds reared in darkness respond to the first words, the first lies, the first kisses? What if you got to watch? Cruel, erotic and elegant by turn, *The Dispute* is rightly regarded as one of Marivaux's masterpieces.

Skeletal Muscle from Molecules to Movement David A. Jones 2004 This text is an essential resource for any practitioner interested in how muscles work, whether from the point of view of training for sport, treating physical problems and diseases, or understanding the basic cellular physiology and how the function interrelates with other body systems. It provides outstanding material on skeletal muscle physiology and biochemistry. The book also offers the reader important knowledge on topics like embryonic development, muscle organization, energy metabolism, structure of the muscle fiber, and mechanisms of fatigue.

Late Merovingian France Paul Fouracre 2013-01-01 This collection of documents in translation brings together the seminal sources for the late Merovingian Frankish kingdom. It interprets the chronicles and saint's lives rigorously to reveal new insights into the nature and significance of sanctity, power and power relationships. The book makes available a range of 7th- and early 8th-century texts, five of which have never before been translated into English. It opens with a broad-ranging explanation of the historical background to the translated texts and then each source is accompanied by a full commentary and an introductory essay exploring its authorship, language and subject matter. The sources are rich in the detail of Merovingian political life. Their subjects are the powerful in society and they reveal the successful interplay between power and sanctity, a process which came to underpin much of European culture throughout the early Middle Ages.

THE FOUR GOSPELS (Les Quatre Évangiles) Emile Zola 2017-10-06 This volume includes three books intended to illustrate the cardinal principles of human life according to Emile Zola. Originally named "Les Quatre Évangiles" was supposed to consist of 4 novels, but the last novel "Justice" was never completed: Fécondité (1899) Travail (1901) Vérité (1903, published posthumously) Justice (unfinished) "Fruitfulness" is the first of a series of three works in which M. Zola proposes to embody what he considers to be the four cardinal principles of human life. These works spring from the previous series of The Three Cities: "Lourdes", "Rome", and "Paris", which dealt with the principles of Faith, Hope, and Charity. Émile Zola (1840 - 1902), French novelist, critic, and political activist who was the most prominent French novelist of the late 19th century. He was noted for his theories of naturalism, which underlie his monumental 20-novel series Les Rougon-Macquart, and for his intervention in the

Dreyfus Affair through his famous open letter, "J'accuse."
