Protein-Ligand Interactions Hans-Joachim Böhm 2006-03-06 The lock-and-key principle formulated by Emil Fischer as early as the end of the 19th century has still not lost any of its significance for the life sciences. The basic aspects of ligand-protein interaction may be summarized under the term 'molecular recognition' and concern the specificity as well as stability of ligand binding. Molecular recognition is thus a central topic in the development of active substances, since stability and specificity determine whether a substance can be used as a drug. Nowadays, computer-aided prediction and intelligent molecular design make a large contribution to the constant search for, e. g., improved enzyme inhibitors, and new concepts such as that of pharmacophores are being developed. An up-to-date presentation of an eternally young topic, this book is an indispensable information source for chemists, biochemists and pharmacologists dealing with the binding of ligands to proteins.

The Lovers Alice Ferney 2002 Pauline is young and coquettish. She is also happily married to Marc and has a child. Gilles, kind and self-confident, is twenty years older and a recent divorcee. After he watches Pauline one morning, he asks to meet her. In spite of herself, Pauline agrees. Alice Ferney unfolds the next stages of the seduction in forensic detail and with devastating lucidity. As Pauline faces the possibility of an affair, she is thrown into confusion. Is she just feeling flattered because she is desired? Is she indulging in a fantasy version of love? Or could she have truly fallen for a stranger? We also eavesdrop on the lives of the people around Pauline and Gilles, from Pauline's adoring and unsuspecting husband, to Max and Eve's disintegrating marriage, to Penelope and her relationship with a man older than her father, and Laura, who desperately wants a child. Together, their stories make up a

complete picture of the changing degrees of love.

The Malatesta of Rimini and the Papal State P. J. Jones 2005-11-17 A detailed investigation into the origin, development and character of the Malatesta government and the causes of its overthrow.

The Pope's Men Peter Partner 1990 Drawing on extensive research in Italian archives, this is a study of the papal bureaucracy during the Renaissance, a time when the Pope was among the most powerful of European rulers. Partner sets the ruling elite of the Renaissance Papacy in its social and political context, and analyzes its composition and manners of operation. A perceptive analysis of the influential men who ran the Renaissance Papacy, *The Pope's Men* is a valuable contribution to the study of Renaissance Europe and the history of the Italian states.

The Architect David Greig 2014-01-22 "The most important playwright to have emerged north of the border in years." (Scotsman) *The Architect* charts the rise and fall of Leo Black, once an idealistic and idolised designer, whose magnificent visions are now crumbling, along with his family, in the light of grubby reality. "Provides convincing evidence of David Greig's confident transition from a dramatist of promise to one of stature." (Independent)

The Class Francois Begaudeau 2011-01-04 Winner of the Prix France Culture/Télérama prize, *The Class* explores timely issues of race, class, identity, colonial history, immigration, and education, "suspend[ing] judgment and liberat[ing] the raw words of kids in a deconsecrated classroom" (Le Monde). The novel's eponymous film version, directed by Laurent Cantet, starring author Begaudeau as himself, won the Palme d'Or at the 2008 Cannes Film Festival and was nominated for the 2009

Academy Award for Best Foreign Language Film.

Anne-Marie the Beauty Yasmina Reza 2021-05-04 Another thought-provoking master class in how we perform life by the award-winning novelist and playwright Yasmina Reza. "I was bored with my husband," says Anne-Marie, the irrepressible voice of Anne-Marie la Beauté, "but you know, boredom is part of love." Mostly she is speaking here of her more famous friend and colleague, the French actress Giselle Fayolle, in whose shadow she has spent her career. "My life was a near miss," she adds, before explaining that she enunciated well because "I loved to say the words." A very short novel with the power and resonance of a much longer one, Anne-Marie la Beauté is a profound and moving act of remembrance, a clear-eyed assessment of the hard-edged nature of fame, a meditation on aging--and a wonderfully observant and comic exploration of human foibles. In short, another thought-provoking master class in how we perform life by the peerless Yasmina Reza.

The Pontificate of Clement VII Sheryl E. Reiss 2017-03-02 The pontificate of Clement VII (Giulio de' Medici) is usually regarded as amongst the most disastrous in history, and the pontiff characterized as timid, vacillating, and avaricious. It was during his years as pope (1523-34) that England broke away from the Catholic Church, and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff. Given these spectacular political and military failures, it is perhaps unsurprising that Clement has often elicited the scorn of historians, rather than balanced and dispassionate analysis. This interdisciplinary volume, the first on the subject, constitutes a major step forward in our understanding of Clement VII's pontificate. Looking beyond Clement's well-known failures, and anachronistic comparisons with more 'successful' popes, it provides a fascinating insight into one of the most pivotal periods of papal and European history. Drawing on long-neglected sources, as rich as they are abundant, the contributors address a wide variety of important aspects of Clement's pontificate, re-assessing his character, familial and personal relations, political strategies, and cultural patronage, as well as

exploring broader issues including the impact of the Sack of Rome, and religious renewal and reform in the pre-Tridentine period. Taken together, the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope, patron, and politician. In reconsidering the politics and emphasizing the cultural vitality of the period, the collection provides fresh and much-needed revision to our understanding of Clement VII's pontificate and its critical impact on the history of the papacy and Renaissance Europe.

Hammerklavier a Memoir Yasmin Reza 2000-02 Yasmina Reza is best known as the author of the immensely successful Tony award-winning play *Art*. Her latest work, *Hammerklavier*, is a bittersweet collection of autobiographical sketches that have love, loss, and the relentless passage of time as their themes. Convinced that one's deepest thoughts can be said simply, Reza does so with unequalled humor and perceptiveness. She contemplates evanescence and death in her young daughter's toothless smile, secretly mourning that it will inevitably change. In the title story, the sometimes adversarial but very loving relationship Reza shared with her father is examined in terms of their love of music.

L'Europe Méditerranéenne Marta Petricioli 2008 L'Europe de la méditerranée, comparée aux autres régions européennes, dispose d'une histoire et d'une géographie particulières. Et pourtant elle entretient avec ces régions de nombreux rapports qu'il conviendra d'analyser afin d'enrichir notre compréhension de l'Europe dans son ensemble. Une longue tradition de rapports économiques et culturels rapproche tous les pays donnant sur la mer, berceau des principales civilisations du monde, bassin où s'échangent hommes, idées, matières premières, et technologies. L'Union européenne est appelée à développer une grande

politique méditerranéenne, aussi bien par l'adhésion de nouveaux pays que par une politique de bon voisinage ou d'associations privilégiées. L'instrument principal devrait en être une politique culturelle servant de pont entre l'Est et l'Ouest, le Nord et le Sud, politique commune afin de répandre les valeurs contenues dans le projet de constitution européenne qui reconnaît dans le concept de diversité son bien le plus précieux. Les pays de l'Europe méditerranéenne, avec leurs expériences et leurs savoirs, peuvent fournir à cette politique une contribution précieuse. Ce volume, fruit de la coopération internationale de vingt chercheurs, apporte des éclairages sur l'Europe méditerranéenne non seulement dans des dimensions historiques, économiques, démographiques et politologiques, mais également dans le domaine des relations internationales et de la politique culturelle. The geography and the history of Mediterranean Europe are very different from those of the other European regions, but their role in the relationships with the other shores of the Mediterranean can be of great assistance to Europe as a whole. All the countries bordering the sea that witnessed the birth of some of the major civilisations of the world share a long tradition of economic and cultural relations. In the past numerous diasporas knit the harbour cities together, transmitting the ideas of the Enlightenment; today an uninterrupted flow of raw materials traverses the Mediterranean, together with people, ideas and technology. The European Union is called upon to develop a major Mediterranean policy, both through the accession of new countries, and by means of a policy of neighbourhood or of privileged associations. The principal tool should be a cultural policy that serves as a bridge between east and west, north and south. A common policy to spread the values contained in the project of the European constitution. In its motto «United in diversity», the Union recognises diversity as its most valuable asset. The countries of Mediterranean Europe, with their experience and their knowledge, can make a precious contribution to this policy. This book, the fruit of international co-operation among 20 researchers, offers a contribution to the study of Mediterranean Europe not only in the historic, economic, demographic and politological ambit, but also in the sphere of

international relations and cultural policy.

Florentine Painting and Its Social Background. The Bourgeois Republic Before Cosimo De' Medici's Advent to Power Frederick Antal 1947

The Odin Teatret Archives Mirella Schino 2017-11-20 The Odin Teatret Archives presents collections from the archives of one of the foremost reference points in global theatre. Letters, notes, work diaries, articles, and a wealth of photographs all chart the daily activity that underpins the life of Odin Teatret, telling the adventurous, complex stories which have produced the pioneering work that defines Odin's laboratory approach to theatre. Odin Teatret have been at the forefront of theatrical innovation for over fifty years, devising new strategies for actor training, knowledge sharing, performance making, theatrical alliances, and ways of creating and encountering audiences. Their extraordinary work has pushed boundaries between Western and Eastern theatre; between process and performance; and between different theatre networks across the world. In this unique volume, Mirella Schino brings together a never before seen collection of source materials which reveal the social, political, and artistic questions facing not just one groundbreaking company, but everyone who tries to make a

life in the theatre.

The Economy of Mongolia Tömöriin Namzhim 2000

Communes and Despots in Medieval and Renaissance Italy John E. Law 2016-12-05 Building on important issues highlighted by the late Philip Jones, this volume explores key aspects of the city state in late-medieval and Renaissance Italy, particularly the nature and quality of different types of government. It focuses on the apparently antithetical but often similar governmental forms represented by the republics and despotisms of the period. Beginning with a reprint of Jones's original 1965 article, the volume then provides twenty new essays that re-examine the issues he raised in light of modern scholarship. Taking a broad chronological and geographic approach, the collection offers a timely re-evaluation of a question of perennial interest to urban and political historians, as well as those with an interest in medieval and Renaissance Italy.

Early Farmers A. W. R. Whittle 2014 Archaeology and science enable new and creative understandings of Europe's early farmers, answering questions that remain after more than a century of research. The challenge is to integrate multiple lines of evidence, scientific and more traditionally archaeological, while keeping in focus the principal questions that we want to ask of our data.

Active Light Fabrizio Crisafulli 2013 This book looks at various important events relating to the poetics of light in theatre production in the West in the twentieth century, from the great reformists at the beginning of the century to contemporary artists such as Josef Svoboda, Alwin Nikolais and Robert Wilson. The intention isn't to outline a somewhat comprehensive history of stage lighting, instead it is an attempt to identify some basic issues concerning its use. Lighting issues are unshackled from the limited contexts of technique and image, where they often end up only to be relegated, and examined in the context of the performance's space/time structure, poetic and dramatic construction, and the relationship with the performer. A section

dedicated to the theatrical work of the author outlines the distinctive point of view behind the book, regarding the creative processes and the operational relationship with technique. The title *Active Light* is a direct reference to Adolphe Appia who, at the end of the nineteenth century, was one of the first to deal with the issue of light explicitly as an artistic issue in theatre, with his own writings and creations. As far as Appia was concerned *lumiere active* was expressive light, creating shapes, forming poetic matter and dramatic substance."

De Bono Communi Elodie Lecuppre-Desjardin 2010 Traditionally confined to the sphere of the State and of *auctoritas*, the phrase the Common Good is set to conquer the cities in the late Middle Ages and at the beginning of the Early Modern period. But can we compare a kingdom like France where the cities defend their Common Good by making reference to the interest and benefit of the Kingdom with principalities like Flanders where, despite their fierce desire for autonomy, the cities use the notion with much greater reservation than their Italian counterparts? This volume traces the intellectual and theoretical roots that have led to the emergence of the notion of the Common Good in the urban world of Western Europe by analysing the practical forms of its manifestations. Elodie Lecuppre-Desjardin teaches at the University of Lille 3 (IRHiS). Her research interests cover political thought and urban identity in the Burgundian Low Countries. Anne-Laure Van Bruaene teaches at the University of Ghent. Her main field of interest is urban culture in the late medieval and early modern Low Countries.

The Celts of Iron Age Europe Olivier Buchsenschutz 2011-04-01
Otherwise known as the world of Asterix, this fierce society existed in Europe many centuries ago. This book looks at how it came into existence, at its heroes and princes, how it expanded, resisting the force of the Roman Empire and how it eventually merged with its Mediterranean invaders. Themes such as agriculture, craftwork and industry are examined, as well as how the Celts saw themselves and the world around them, represented in their art and religion. Changes in society are discussed using evidence for feasts and ritual, tomb organisation and political and tribal territories. As fascinating societies on the threshold of the Roman Empire, the Celts are also examined in terms of how they have been seen through history and their significance for us today.
