Constructing and Representing Territory in Late Medieval and Early Modern Europe Overlaet DAMEN 2021-12-08 In recent political and constitutional history, scholars seldom specify how and why they use the concept of territory. In research on state formation processes and nation building, for instance, the term mostly designates an enclosed geographical area ruled by a central government. Inspired by ideas from political geographers, this book explores the layered and constantly changing meanings of territory in late medieval and early modern Europe before cartography and state formation turned boundaries and territories into more fixed (but still changeable) geographical entities. Its central thesis is that analysing the notion of territory in a premodern setting involves analysing territorial practices: practices that relate people and power to space(s). The book not only examines the construction and spatial structure of premodern territories but also explores their perception and representation through the use of a broad range of sources: from administrative texts to maps, from stained glass windows to chronicles.

The Surnames of Ireland Edward MacLysaght 1988-12-01 Ireland was one of the earliest countries to evolve a system of hereditary surnames. More than 4,000 Gaelic, Norman and Anglo-Irish surnames are listed in this book, giving a wealth of information on the background and location of Irish families. Edward MacLysaght was a leading authority on Irish names and family history. He served as Chief Herald and Genealogical Officer of the Irish Office of Arms. He was also Keeper of Manuscripts of the National Library of Ireland and was Chairman of the Manuscripts

Commission. This book, which was first published in 1957 and now is in its sixth edition, is being reprinted for the fourth time and remains the definitive record of Irish surnames, their genealogy and their origins.

Behold an Animal Thangam Ravindranathan 2020-01-15 As animals recede from our world, what tale is being told by literature's creatures? Behold an Animal: Four Exorbitant Readings examines incongruous animals in the works of four major contemporary French writers: an airborne horse in a novel by Jean-Philippe Toussaint, extinct orangutans in Éric Chevillard, stray dogs in Marie NDiaye, vanishing (bits of) hedgehogs in Marie Darrieussecq. Resisting naturalist assumptions that an animal in a story is simply—literally or metaphorically—an animal, Thangam Ravindranathan understands it rather as the location of something missing. The animal is a lure: an unfinished figure fleeing the frame, crossing bounds of period, genre, even medium and language. Its flight traces an exorbitant (self-)portrait in which thinking admits to its commerce with life and flesh. It is in its animals, at the same time unbearably real and exquisitely unreal, that literature may today be closest to philosophy. This book's primary focus is the contemporary French novel and continental philosophy. In addition to Toussaint, Chevillard, NDiaye, and Darrieussecq, it engages the work of Jean de La Fontaine, Eadweard Muybridge, Edgar Allan Poe, Lewis Carroll, Samuel Beckett, and Francis Ponge.

The Androgyne in Early Modern France Marian Rothstein 2015-09-16 Based on sources in Genesis and Plato's Symposium, the androgyne during Early Modern France was a means of expressing the full potential of humans made in the image of God. This book documents and comments on the range of references to the androgyne in the writings of poets, philosophers, courtiers, and women in positions of political power.

Law and the Illicit in Medieval Europe Ruth Mazo Karras 2013-02-11

In the popular imagination, the Middle Ages are often associated with lawlessness. However, historians have long recognized that medieval culture was characterized by an enormous respect for law and legal procedure. This book makes the case that one cannot understand the era's cultural trends without considering the profound development of law.

Cambodge Penny Edwards 2007-02-28 This strikingly original study of Cambodian nationalism brings to life eight turbulent decades of cultural change and sheds new light on the colonial ancestry of Pol Pot's murderous dystopia. Penny Edwards recreates the intellectual milieu and cultural traffic linking Europe and empire, interweaving analysis of key movements and ideas in the French Protectorate of Cambodia with contemporary developments in the Métropole. From the naturalist Henri Mouhot's expedition to Angkor in 1860 to the nationalist Son Ngoc Thanh's short-lived premiership in 1945, this history of ideas tracks the talented Cambodian and French men and women who shaped the contours of the modern Khmer nation. Their visions and ambitions played out within a shifting landscape of Angkorean temples, Parisian museums, Khmer printing presses, world's fairs, Buddhist monasteries, and Cambodian youth hostels. This is cross-cultural history at its best. With its fresh take on the dynamics of colonialism and nationalism, *Cambodge: The Cultivation of a Nation* will become essential reading for scholars of history, politics, and society in Southeast Asia. Edwards' nuanced analysis of Buddhism and her consideration of Angkor's emergence as a national monument will be of particular interest to students of Asian and European religion, museology, heritage studies, and art history. As a highly readable guide to Cambodia's recent past, it will also appeal to specialists in modern French history, cultural studies, and colonialism, as well as readers with a general interest in Cambodia.

A Civil Society James Smith Allen 2022-05 *A Civil Society* explores the struggle to initiate women as full participants in the masonic brotherhood that shared in the rise of France's civil society and its "civic morality" on behalf of women's rights. As a vital component of the third sector during France's modernization, freemasonry empowered women in complex social networks, contributing to a more liberal republic, a more open society, and a more engaged public culture. James Smith Allen shows that although women initially met with stiff resistance, their induction into the brotherhood was a significant step in the development of French civil society and its "civic morality," including the promotion of women's rights in the late nineteenth century. Pulling together the many gendered facets of masonry, Allen draws from periodicals, memoirs, and archival material to account for the rise of women within the masonic brotherhood in the context of rapid historical change. Thanks to women's social networks and their attendant social capital, masonry came to play a leading role in French civil society and the rethinking of gender relations in the public sphere.

The War for Gaul Julius Caesar 2021-07-13 "Imagine a book about an unnecessary war written by the ruthless general of an occupying army - a vivid and dramatic propaganda piece that forces the reader to identify with the conquerors and that is designed, like the war itself, to fuel the limitless political ambitions of the author. Could such a campaign autobiography ever be a great work of literature - perhaps even one of the greatest? It would be easy to think not, but such a book exists -and it helped transform Julius Caesar from a politician on the make into the Caesar of legend. This remarkable new translation of Caesar's famous but underappreciated War for Gaul captures, like never before in English, the gripping and powerfully concise style of the future emperor's dispatches from the front lines in what are today France, Belgium, Germany, and Switzerland. While letting Caesar tell his battle stories in his own way, distinguished classicist James O'Donnell also fills in the rest of the story in a substantial introduction and notes that together explain why Gaul is the "best bad man's book ever written"--A great book in which a genuinely bad person offers a bald-faced, amoral description of just how bad he has been. Complete with a chronology, a map of Gaul, suggestions for further reading, and an index, this feature-rich edition captures the forceful austerity of a troubling yet magnificent classic - a book that, as O'Donnell says, 'gets war exactly right and morals exactly wrong.'" -- Front jacket flap
