The Order of Minims in Seventeenth-Century France P.J.S. Whitmore 2012-12-06 Thinking of the text from the *Dies frae* (S. Matthew, XXV, 40). It is also probable that this other Saint Francis, partly out of admiration for his illustrious compatriot of Assisi and partly from a compelling urge to be superlative in all things, chose the title in opposition to the Franciscans, the *Fratres Minori*, I who had previously

adopted this style taken from Saint Matthew, XXIII, 8. The title "Minim" was confirmed in these words" ... eosque Eremitos Ordinis Minimorum Fratrum Eremitarum F. Francesci de Paula in posterum nuncupari," taken from the Papal Bull, *Meritibus religiosae vitae*, of 26 February, 1493. The earliest reference to the Order in France is in a fragment preserved in the *Bibliothèque de l'Arsenal* called, *La règle et vie de Frere Franfois, pauvre et humble hermite de Paule, laquelle donne a tous ses 2 freres voulant entrer et vivre en son ordre*. The dating of this manuscript should be accepted with considerable reserve; it bears a clearly legible "1474," although it seems most unlikely that any reference to an Order occurred before the Bull of 1493 or that any Rule appeared in French before the Founder's visit to Louis XI in 1483. 3 The

fame of Francis and his reputation as a "guerisseur" had reached the French court where Louis XI was sick and dying; the King summoned him to the chateau of Le Plessis-Ies-Tours, but it required the intervention of the Pope to make the hermit undertake the journey

Ancient Jewish and Christian Perceptions of Crucifixion David W.

Chapman 2010-07-01 This thorough study covers all the primary data on how early Jews and Christians perceived crucifixion. The author examines Second Temple and early rabbinic literature and material remains to demonstrate the range of ancient Jewish perceptions. He also surveys ancient Jewish historical accounts of crucifixion, magical literature, and the proverbial use of crucifixion imagery. The volume pays special attention to Jewish interpretations of key Old Testament texts and early Christian literature that reflects on Jewish perceptions of the cross in antiquity.

Originally published by Mohr Siebeck and now available as an affordable North American paperback edition, the book provides indispensable background for scholarly work on the death of Jesus.

Surrealism and Architecture

Thomas Mical 2005 Twenty-one essays examining the relationship of surrealist thought to architectural theory and practice.

Setting Sights Scott Crow 2018 Decades ago, Malcolm X eloquently stated that communities have the legitimate right to defend themselves "by any means necessary" with any tool or tactic, including guns. This wide-ranging anthology uncovers the hidden histories and ideas of community armed self-defense, exploring how it has been used by marginalized and oppressed communities as well as anarchists and radicals within significant social movements of the twentieth and twenty-first centuries. Far from a call to arms, or a "how-to" manual for warfare, this volume offers histories, reflections, and questions about the role of firearms in small collective defense efforts and its place in larger efforts toward the creation of

autonomy and liberation.

Featuring diverse perspectives from movements across the globe, *Setting Sights* includes vivid histories and personal reflections from both researchers and those who participated in community armed self-defense.

Contributors include Dennis Banks, Kathleen Cleaver, Mabel Williams, Subcomandante Marcos, Kristian Williams, George Ciccariello-Maher, Ashanti Alston, and many more.

The Cultural Cold War Frances Stonor Saunders 2013-11-05 During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most

comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the New York Times, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

For all three women, Mexico offered freedom to explore their art in ways that had not been possible in Europe. Surreal Friends tells the fascinating story of their artistic friendship.

Murray Bookchin 1977

Turner on the Seine Ian Warrell 1999 Turner published two volumes of views of the River Seine in the early 1830s, when he was at the height of his success. All of the watercolours he completed for the project are reproduced in this book, along with many of his preliminary studies. As the

text demonstrates, the watercolours are born out of Turner's long familiarity with the river. His views came as part of an explosion in the market for travel books, particularly for the area between Paris and the coast, and a number of these comparable publications, with their illustrations by some of Turner's finest rivals, are discussed. The book also examines how Turner confronted the technical innovations of the new age, making contemporary features, such as canals and steamboats, the subjects of his pictures, and thereby preparing the ground for masterpieces such as *The Fighting Temeraire*. [The Memory of Tiresias](#) M. B. IłAmpol'skiǐ 1998-10-26 "Iampolski deals with concepts and ideas that are highly complex and frequently very abstract, yet his discussion—and the progression of his analyses—is always precise and easy to follow. . . . Each of his points is grounded in a careful examination of a specific text,

and most of the texts are well-known to American audiences."—Vladimir Padunov, University of Pittsburgh

The Aesthetics and Architecture of Care Environments Freja Ståhlberg-Aalto 2019

Evaluating the built environment in a comprehensive manner is both

challenging and topical. The environment influences us in a multitude of ways, simultaneously and personally. We feel, hear, see, smell, and even taste the environment that surrounds us. Care environments, in particular, are complicated and their effects on users difficult to estimate. However, the aesthetics of care environments carry huge potential to induce wellbeing, enhance quality of life and, thereby, affect the healing and rehabilitation of patients and residents. This book applies experimental Q methodology - a qualitative method for systematically analyzing human subjectivity - in search of a new way to evaluate care environments. The focus is on the role of aesthetics as experienced by the actual users and stakeholders of ten high-quality and award-winning care environments in Japan and the European countries of Finland, Sweden, the United Kingdom, France and Austria. A total of 45 participants, including architects, members of the

administration, care staff, patients, residents, and their relatives give their subjective accounts on the aesthetic features of the care environment. Five aesthetic discourses and a set of shared aesthetic values are identified, which transcend building-type specific, contextual and professional boundaries. The aims are to increase our understanding of care environment aesthetics and architecture, and thus contribute to the design of future care buildings that fulfil the values and expectations of the users.

The Vitamin A Story B.

Koletzko 2012-09-04 This book shows how vitamin A deficiency - before the vitamin was known to scientists - affected millions of people throughout history. It is a story of sailors and soldiers, penniless mothers, orphaned infants, and young children left susceptible to blindness and fatal infections. We also glimpse the fortunate

ones who, with ample vitamin A-rich food, escaped this elusive stalker. Why were people going blind and dying? To unravel this puzzle, scientists around the world competed over the course of a century. Their persistent efforts led to the identification of vitamin A and its essential role in health. As a primary focus of today's international public health efforts, vitamin A has saved hundreds of thousands of lives. But, we discover, they could save many more were it not for obstacles erected by political and ideological zealots who lack a historical perspective of the problem. Although exhaustively researched and documented, this book is written for intellectually curious lay readers as well as for specialists. Public health professionals, nutritionists, and historians of science and medicine have much to learn from this book about the cultural and scientific origins of their disciplines. Likewise, readers interested in military and cultural history will learn

about the interaction of health, society, science, and politics. The author's presentation of vitamin A deficiency is likely to become a classic case study of health disparities in the past as well as the present.

Histories of Archaeology Tim Murray 2008-09-04 In recent years there has been an upsurge of interest in the history of the discipline of archaeology. Local, national, and international histories of archaeology that deal with institutions, concepts, categories, and the social and political contexts of archaeological practice have begun to influence the development of archaeological theory. This volume contributes to these developments by reprinting 19 significant papers. Spanning much of the last 200 years and global in coverage and outlook, the papers provide a thorough grounding in the historiography of archaeology, and will enhance understanding of the origins

and growth of its theory and practice. A general introduction which is itself a contribution to historiography orients readers by outlining core themes and issues in the field.

La liste des  diteurs et la liste des collections de langue fran aise. *History of Linguistic Thought in the Early Middle Ages* Vivien A. Law 1993-11-11 Surveys of linguistics in the Middle Ages often begin with the twelfth century, dismissing the preceding six centuries as 'devoid of originality' or 'dependent upon Donatus and Priscian'. This collection of articles devoted to linguistics in the early Middle Ages attempts to redress the balance

by presenting a variety of approaches to new and controversial questions. The volume opens with a study of the historiography of early medieval grammar, with a bibliography of primary and secondary literature. The history of linguistic doctrine is discussed in articles dealing with Virgilius Maro Grammaticus, with the Irish contribution to the analysis of Latin, and with the Carolingian grammarians. A paper discussing a grammar from late Anglo-Saxon England (Beatus quid est) offers new insights into pedagogical techniques and the integration of literary texts into grammar teaching. The attitudes towards varieties of Latin in late antique and early medieval grammars are discussed in a wider context of cultural history. Finally, the volume includes two articles on the transmission of the grammars of the later Roman Empire to the early Middle Ages (Priscian and Dynamius). **Development as a Human Right** B rd-Anders Andreassen 2010 Bsrđ A. Saint-Georges de Bouhéliér's Naturisme

Patrick L. Day 2001 At the end of the nineteenth century in France, there arose a literary movement, termed le naturisme by its founder, Saint-Georges de Bouhéliér. Anti-symbolist in its conception, le naturisme contained as its tenets a return to clarity and simplicity of expression and a strict avoidance of symbolist hermeticism, characteristic of Mallarmé and others. Bouhéliér and his disciples triggered a polemic that raged throughout the final years of the nineteenth century and involved writers such as Emile Zola and André Gide before its demise in the early twentieth century.
