*Le Breviari d'amor de Matfre Ermengaud, suivi de sa lettre à sa soeur. Intr. et glossaire par G.Azaïs* Matfre Ermengaud 1864

Law, Society, and Authority in Late Antiquity Ralph W. Mathisen 2001-08-02 The sixteen papers in this volume investigate the links between law and society during Late Antiquity (260-640 CE). On the one hand, they consider how social changes such as the barbarian settlement and the rise of the Christian church resulted in the creation of new sources of legal authority, such as local and 'vulgar' law, barbarian law codes, and canon law. On the other, they investigate the interrelationship between legal innovations and social change, for the very process of creating new law and new authority either resulted from or caused changes in the society in which it occurred. The studies in this volume discuss interactions between legal theory and practice, the Greek east and the Roman west, secular and ecclesiastical, Roman and barbarian, male and female, and Christian and non-Christian (including pagans, Jews, and Zoroastrians).

**The Art of the Deal** Reyerson 2021-10-18 Medieval commercial transactions did not occur spontaneously. They were crafted by merchants with the support of numerous personnel on the medieval marketplace: notaries, innkeepers, brokers, transporters, and subordinate personnel of the merchant's entourage. This study introduces the reader to the challenges of trade in the Mediterranean world and to specific market conditions in the Mediterranean French town of Montpellier. A case study of the business of the Cabanis merchants permits an in-depth examination of the facilitation of trade by intermediaries whose activities are traced in the discovery phase of arranging a deal and in its closing and execution. Medieval business practice involved multiple layers of personnel. The complexities of medieval trade are revealed in the new emphasis given to those who assisted merchants in their commercial endeavors.

*On the Good of Marriage* St. Augustine 2018-08 This treatise, and the following, were written against somewhat that still remained of the heresy of Jovinian. "Jovinianus," he says, "who a few years since tried to found a new heresy, said that the Catholics favored the Manichæans, because in opposition to him they preferred holy Virginity to Marriage."

*Early Modern Women and Transnational Communities of Letters* Julie D. Campbell 2009 Offering a comparative and international approach to early modern women's writing, the essays gathered here focus on multiple literatures across Italy, France, England, and the Low Countries. Individual essays investigate women in diverse social classes and life stages, ranging from siblings and mothers to nuns to celebrated writers. The collection overall is invested in crossing geographic, linguistic, political, and religious borders and in exploring familial, political, and religious communities.

*The Corporate Commonwealth* Henry S. Turner 2016-06-17 The Corporate Commonwealth traces the evolution of corporations during the English Renaissance and explores the many types of corporations that once flourished. Along the way, the book offers important insights into our own definitions of fiction, politics, and value. Henry S. Turner uses the resources of economic and political history, literary analysis,

and political philosophy to demonstrate how a number of English institutions with corporate associations—including universities, guilds, towns and cities, and religious groups—were gradually narrowed to the commercial, for-profit corporation we know today, and how the joint-stock corporation, in turn, became both a template for the modern state and a political force that the state could no longer contain. Through innovative readings of works by Thomas More, William Shakespeare, Francis Bacon, and Thomas Hobbes, among others, Turner tracks the corporation from the courts to the stage, from commonwealth to colony, and from the object of utopian fiction to the subject of tragic violence. A provocative look at the corporation's peculiar character as both an institution and a person, *The Corporate Commonwealth* uses the past to suggest ways in which today's corporations might be refashioned into a source of progressive and collective public action.

**The Surnames of Ireland** Edward MacLysaght 1988-12-01 Ireland was one of the earliest countries to evolve a system of hereditary surnames. More than 4,000 Gaelic, Norman and Anglo-Irish surnames are listed in this book, giving a wealth of information on the background and location of Irish families. Edward MacLysaght was a leading authority on Irish names and family history. He served as Chief Herald and Genealogical Officer of the Irish Office of Arms. He was also Keeper of Manuscripts of the National Library of Ireland and was Chairman of the Manuscripts Commission. This book, which was first published in 1957 and now is in its sixth edition, is being reprinted for the fourth time and remains the definitive record of Irish surnames, their genealogy and their origins.

**Prologus** Saint Ivo (Bishop of Chartres) 2004 The Prologue to Bishop Ivo of Chartres' *Decretum* and *Panormia* has long been recognized as a seminal text in medieval canon law. It can be fairly called the first extended treatment of ecclesiastical jurisprudence. In its attention to categories of law and context, it also demonstrates the nascent scholastic method. This treatise on the tension between rigor and mercy in judgment - and how they could be reconciled through dispensation - spoke not only to legal and theological concerns of the early twelfth century but also to enduring questions about the nature and limits of ecclesiastical law. This book offers the first critical edition of the text based not only on extensive examination of the manuscripts but also the sources Ivo used in its composition. This enables a detailed examination of the text, which, from start to finish, reveals Ivo's conviction that love, *caritas*, was the essence of canon law.

*The War for Gaul* Julius Caesar 2021-07-13 "Imagine a book about an unnecessary war written by the ruthless general of an occupying army - a vivid and dramatic propaganda piece that forces the reader to identify with the conquerors and that is designed, like the war itself, to fuel the limitless political ambitions of the author. Could such a campaign autobiography ever be a great work of literature - perhaps even one of the greatest? It would be easy to think not, but such a book exists -and it helped transform Julius Caesar from a politician on the make into the Caesar of legend. This remarkable new translation of Caesar's famous but underappreciated War for Gaul captures, like never before in English, the gripping and powerfully concise style of the future emperor's dispatches from the front lines in what are today France, Belgium, Germany, and Switzerland. While letting Caesar tell his battle stories in his own way, distinguished classicist James O'Donnell also fills in the rest of the story in a substantial introduction and notes that together explain why Gaul is the "best bad man's book ever written"--A great book in which a genuinely bad person offers a bald-faced, amoral description of just how bad he has been. Complete with a chronology, a map of Gaul, suggestions for further reading, and an index, this feature-rich edition captures the forceful austerity of a troubling yet magnificent classic - a book that, as O'Donnell says, 'gets war exactly right and morals exactly wrong.'" -- Front jacket flap

**Society, Law, and Trade in Medieval Montpellier** Kathryn Reyerson 1995 Contains 9 studies in English and 3 studies in French. **Crisis of Feudalism** G. Bois 2009-02-12 Guy Bois' study of late medieval Normandy is a work of many dimensions. It should be of particular interest to English readers because of the close historical associations of England with Normandy and because of the natural resemblances between these two countries, separated only by the English Channel. This study does not, however, cover the period of close political association but that of invasion and warfare, of destruction and pillage. Although Guy Bois' book follows through the movements of population, prices, rents and wages over two and a half centuries, it does not

consist simply of the delineation of trends. The realities of the land and its occupants are fitted into this boarder scheme, their economic and social activities are described as well as the impact on them of the military campaigns. All this is based on a meticulous analysis of every type of documentation available, ranging from tax returns to ecclesiastical surveys, from chronicles to rentals.

**The Medieval Crown of Aragon** Thomas N. Bisson 1986 This work surveys the history of a great Mediterranean federation whose homelands were Catalonia and Aragon. It incorporates the results of recent research into the archives of Catalonia, Aragon Valencia, Majorca, and other Mediterranean lands. *Louis VII and His World* 2018-06-05 Louis VII and His World examines a lesser-known yet significant Capetian monarch and his role in the twelfth century. The essays focus upon the king's leadership, administration and his connection to the events of the age.

**Women and Work in Preindustrial Europe** Barbara Hanawalt 1986-07-22 The working women in this volume represent a wide diversity of stations in life, ranging from slaves and servants to respectable widows and professional midwives. Through a variety of sources including notarial records, wills, contracts, private account books, and city, manorial, and state court records, their work patterns come to life. The women studied lived in Page viii →Ragusa (Dubrovnik), Florence, Lyon and Montpellier, Exeter and rural England, Cologne, Leiden, and Nuremberg. With such a variety of work experiences, locations, and centuries separating their lives, a remarkable continuity of circumstances and options nevertheless emerges.

*History of Law and Other Humanities.Views of the legal world across the time* Valerio Massimo Minale 2019-07-09 The collection of essays presented here examines the links forged through the ages between the realm of law and the expressions of the humanistic culture. We collected thirty-five essays by international scholars and organized them into sections of ten chapters based around ten different themes. Two main perspectives emerged: in some articles the topic relates to the conventional approach of law and/in humanities (iconography, literature, architecture, cinema, music), other articles are about more traditional connections between fields of knowledge (in particular, philosophy, political experiences, didactics). We decided not to confine authors to one particular methodological framework, preferring instead to promote historiographical openness. Our intention was to create a patchwork of different approaches, with each article drawing on a different area of culture to provide a new angle to the history being told. The variety of authorial nationalities gives the collection a multicultural character and the breadth of the chronological period it deals with from antiquity to the contemporary age adds further depth of insight. As the element that unites the collection is historiographical interpretation, we wanted to bring to the fore its historical depth. Thus for every chapter we organized the articles in chronological order according to the historical context covered. Looking at the final outcome, it was interesting to learn that more often than not the connection between law and humanities is not simply a relation between a specific branch of the law and a single field of the humanities, but rather a relation that could be developed in many directions at once, involving different fields of knowledge, and of arts and popular culture. We are grateful to Luigi Lacchè for his contribution to this collection. His essay outlines the coordinates of the law and humanities world, laying out the instruments necessary for an understanding of the origins of a complex methodology and the different approaches that exist within it. This project is the result of discussions that took place during the XXIII Forum of the Association of Young Legal Historians held in Naples in the spring of 2017. The book was made possible thanks to the advice and support of Cristina Vano. The Editors

**Ordines Iudicarii and Libelli de Ordine Iudiciorum** Linda Fowler-Magerl 1994 Traetises describing judicial procedure appeared for the first time in the twelfth century, and the expressions De iudiciis, Libellus de ordine iudiciorum and Ordines iudicarii were among the first titles used to designate them. An ordo iudiciarius or an ordo iudiciorum is devoted exclusively to the procedural law found in Roman and/or canon law. Although the author of an ordo may have had a certain forum in mind, his description of procedure has general validity. An ordo differs in this sense from a stylus, which is the description of the procedure appropriate to a specific court. This volume draws from Ordo iudiciorum vel ordo iudiciarius (1984) by the same author, which describes the procedural texts written before 1234, but encompasses the complete lifecycle of the ordines, from the middle of the twelfth to the end of the fifteenth century. *The Right of Spoil of the Popes of Avignon, 1316-1415* Daniel Williman 1988 The popes of Avignon, beginning with the election of John XXII in 1316 & ending with the deposition of Benedict XIII in 1415, laid claim to the movable property of some 1,200 ecclesiastical persons, exercising a power that has subsequently been named "jus spoli," the "right of spoil." This term to designate the right of the pope to collect the goods of deceased clerics for his own use seems to appear for the first time at the end of the 15th cent. Chapters: Intro. Definitions; The Law of Succession to Clerics' Property; The Pope as Protector of Clerical Property & the Testamentary License; "Jus spoli" & "plenitudo potestatis"; The Admin. & Documen'n. of Spoils; The Extent & Incidence of the Right of Spoil; & Repertory of Cases of the Papal Right of Spoil.

With verve and drama, volume one of Runciman's trilogy tells the story of the First Crusade - from its unlikely beginnings in pilgrimage to the horrors of the siege of Jerusalem and the carving out of new territory on the edge of the eastern Mediterranean.
