## **Judah and the Judeans in the Fourth**

**Century B.C.E.** Oded Lipschitz 2007-01-01

During the past decade, the period from the 7th century B.C.E. and later has been a major focus because it is thought to be the era when much of the Hebrew Bible/Old Testament was formed. As a result, there has also been much interest in the historical developments of that time and specifically in the status of Judah and its neighbors. Three conferences dealing roughly with a century each were organized, and the first conference was held in Tel Aviv in 2001; the proceedings of that conference were published as *Judah and the Judeans in the Neo-Babylonian Period*. The second volume was published in early 2006, a report on the conference held in Heidelberg in July 2003: *Judah and the Judeans in the Persian Period*. *Judah and the Judeans in the Fourth Century B.C.E.* is the publication of the proceedings of the third conference, which was held in Muenster, Germany, in August 2005; the essays in it focus on the century during which the Persian Empire fell to Alexander the Great and the Hellenistic kingdoms came to the fore. Participants whose contributions are published here are: R. Achenbach, R. Albertz, B. Becking, E. Ben Zvi, J. Blenkinsopp, E. Eshel, H. Eshel, L. L. Grabbe, A. Kloner, G. N. Knoppers, I. Kottsieper, A. Lemaire, O. Lipschitz, Y. Magen, K. Schmid, I. Stern., O. Tal, D. Vanderhooft, J. Wiesehöfer, J. L. Wright, and J. W. Wright.

**Emotion, Reason, and Action in Kant** Maria Borges 2019-04-18 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). It

is funded by Knowledge Unlatched. Though Kant never used the word 'emotion' in his writings, it is of vital significance to understanding his philosophy. This book offers a captivating argument for reading Kant considering the importance of emotion, taking into account its many manifestations in his work including affect and passion. *Emotion, Reason, and Action in Kant* explores how, in Kant's world view, our actions are informed, contextualized and dependent on the tension between emotion and reason. On the one hand, there are positive moral emotions that can and should be cultivated. On the other hand, affects and passions are considered illnesses of the mind, in that they lead to the weakness of the will, in the case of affects, and evil, in the case of passions. Seeing the role of these emotions enriches our understanding of Kant's moral theory. Exploring the full range of negative and positive emotions in Kant's work, including anger, compassion and sympathy, as well as moral feeling, Borges shows how Kant's theory of emotion includes both physiological and cognitive aspects. This is an important new contribution to Kant Studies, suitable for students of Kant, ethics, and moral psychology.

*Before We Visit the Goddess* Chitra Banerjee Divakaruni 2016-04-19 "A novel in stories, built around crucial moments in the lives of 3 generations of women in an Indian/Indian-American Family"--

*Dark Spring* Unica Zürn 2000 An autobiographical novel that reads more like an exorcism than a novel. In terse and lucid prose, Zürn traces the roots to her obsessions: the exotic father whom she idolized, the impure mother she detested, the masochistic fantasies and onanistic rituals which she said described 'the erotic life of a little girl based on my own childhood.' *Dark Spring* is the story of a girl's simultaneous initiation to sexuality and madness, revealing a dark side of the 'mad love' so championed and romanticized by the (predominantly male) Surrealists.

The Modern Procession Francis Alÿs 2004 On the morning of Sunday, June 23, 2002, 100 participants gathered at The Museum of Modern Art in midtown Manhattan, along with a 12-person Peruvian brass band, and a horse, dogs, and numerous palanquins, atop which sat replicas of three masterpieces from the museum's collection--Picasso's "Les Femmes d'Alger (O. J. Version O), Duchamp's ready-made "Bicycle Wheel" and a Giacometti--and a living representative of contemporary art, Kiki Smith. Three hours later they ended their procession at the museum's new temporary home, in Queens. Along the way, which ran from 11 West 53 Street, over the Queensboro Bridge, and up Queens Boulevard, the procession absorbed 100 additional participants, and enacted a very public spectacle--part saint's day procession and part secular celebration--of the museum's historic move to MoMA QNS.

**The War for Gaul** Julius Caesar 2021-07-13 "Imagine a book about an unnecessary war

written by the ruthless general of an occupying army - a vivid and dramatic propaganda piece that forces the reader to identify with the conquerors and that is designed, like the war itself, to fuel the limitless political ambitions of the author. Could such a campaign autobiography ever be a great work of literature - perhaps even one of the greatest? It would be easy to think not, but such a book exists -and it helped transform Julius Caesar from a politician on the make into the Caesar of legend. This remarkable new translation of Caesar's famous but underappreciated War for Gaul captures, like never before in English, the gripping and powerfully concise style of the future emperor's dispatches from the front lines in what are today France, Belgium, Germany, and Switzerland. While letting Caesar tell his battle stories in his own way, distinguished classicist James O'Donnell also fills in the rest of the story in a substantial introduction and notes that together explain why Gaul is the "best bad man's book ever written"--A great book in which a genuinely bad person offers a bald-faced, amoral description of just how bad he has been. Complete with a chronology, a map of Gaul, suggestions for further reading, and an index, this feature-rich edition captures the forceful austerity of a troubling yet magnificent classic - a book that, as O'Donnell says, 'gets war exactly right and morals exactly wrong.'" -- Front jacket flap

*Literary Translation in Periodicals* Laura Fólca 2020-12-10 While translation history, literary translation, and periodical publications have been extensively analyzed within the fields of Translation Studies, Comparative Literature, and Communication Sciences, the relationship between these three topics remains underexplored. *Literary Translation in Periodicals* argues that there is a pressing need for an analytical focus on translation in

periodicals, a collaborative network of researchers, and a transnational and interdisciplinary approach. The book pursues two goals: (1) to highlight the innovative theoretical and methodological issues intrinsic to analyzing literary translation in periodical publications on a small and large scale, and (2) to contribute to a developing field by providing several case studies on translation in periodicals over a wide range of areas and periods (Europe, Latin America, and Asia in the 19th and 20th centuries) that go beyond the more traditional focus on national and European periodicals and translations. Combining qualitative and quantitative methods of analysis, as well as hermeneutical and sociological approaches, this book reviews conceptual and methodological tools and proposes innovative techniques, such as social network analysis, big data, and large-scale analysis, for tracing the history and evolution of literary translation in periodical publications.

**Celebrity Politics** Darrell M. West 2003 [This book] looks at the history and contemporary role of celebrities in American politics, and the long-term implications of this trend. It examines the intersection of prominent families such as the Kennedys, Bushes, and Clinton with entertainment figures like Charlton Heston (now head of the National Rifle Association) ... Since this book examines celebrity politics in historical context as well as in the contemporary situation, it can be used as a ... supplementary reading in introduction to American Politics courses as well as classes on mass media, campaigns and elections, Congress, the presidency, parties, interest groups, and popular culture.-Pref.  
*The American Revolution and the Habsburg Monarchy* Jonathan Singerton 2022 "This book presents the American Revolution from the perspective of the Habsburg monarchy. It reveals how, despite seeming antithetical to the American cause, the Habsburg dynasty and people in the Habsburg lands realized the opportunity unleashed by the creation of the thirteen United States of America, demonstrating the wider effects of the American Revolution beyond the standard Atlantic World and portraying the Habsburg Monarchy in a new, oceanic light"--

**Narratives of fear and safety** Kaisa Kaukiainen 2020-09-01 The essays in this edited volume, written in English and French, tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media. The articles bring forth new, cross-cultural interpretations on fear and safety through examining what kinds of genre-specific means of world-making narratives use to express these two affectivities. The articles also show how important it is to study these themes in order to understand challenges in times of global threats, such as the climate crisis. The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations. Recent trends in research, such as affect and risk theory, serve as the basis for the discussion. The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals' lives and propose ways of coping with fear. These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past. Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape. Dystopian narratives do not only deal with future threats, such as totalitarianism, technocracy, or environmental disasters, but also suggest alternative ways of being and new hopes in the form of political resistance.  
**The Bath Fugues** Brian Castro 2009 From one of Australia's most lauded writers, comes a wonderfully wrought work, melding intrigue, romance, comedy and deception. A melancholy sadness which courts by never surrenders to despair. Taking the form of three interwoven novellas: the first centred on an aging art forger; the second on a Portuguese poet, opium addict

and art collector, the third on a mysteriously well connected doctor who has built an art gallery in tropical Queensland. A must for all good bookstores.

**The Devotion and Promotion of Stigmatics**

**in Europe, c. 1800-1950** Tine Van Osselaer 2020-10-12 In the nineteenth century a new type of mystic emerged in Catholic Europe. While cases of stigmatisation had been reported since the thirteenth century, this era witnessed the development of the 'stigmatic': young women who attracted widespread interest thanks to the appearance of physical stigmata. To understand the popularity of these stigmatics we need to regard them as the 'saints' and religious 'celebrities' of their time. With their 'miraculous' bodies, they fit contemporary popular ideas (if not necessarily those of the Church) of what sanctity was. As knowledge about them spread via modern media and their fame became marketable, they developed into religious 'celebrities'.

*On the Universal* Francois Jullien 2014-07-08 François Jullien, the leading philosopher and specialist in Chinese thought, has always aimed at building on inter-cultural relations between China and the West. In this new book he focuses on the following questions: Do universal values exist? Is dialogue between cultures possible? To answer these questions, he retraces the history of the concept of the universal from its invention as an aspect of Roman citizenship, through its neutralization in the Christian idea of salvation, to its present day manifestations. This raises the question of whether the search for the universal is a uniquely Western preoccupation: do other cultures, like China, even have a notion of the universal, and if so, how does it differ from ours? Having considered the meaning of the concept in the East and West, Jullien argues that, if communication between cultures is to be meaningful, facile assumptions of universal values and complacent relativism need to be examined. It follows, therefore, that dialogue between cultures should not begin with issues of identity and difference, but rather by considering divergence and profusion. By no longer simply assuming universality, we allow

for greater self-reflection. This wide-ranging and engaging study will be of particular interest to students and scholars of philosophy and of Chinese culture and society. It will also appeal to a wider readership interested in contemporary thought and the challenges of communication between East and West.

**The Surnames of Ireland** Edward MacLysaght 1988-12-01 Ireland was one of the earliest countries to evolve a system of hereditary surnames. More than 4,000 Gaelic, Norman and Anglo-Irish surnames are listed in this book, giving a wealth of information on the background and location of Irish families. Edward MacLysaght was a leading authority on Irish names and family history. He served as Chief Herald and Genealogical Officer of the Irish Office of Arms. He was also Keeper of Manuscripts of the National Library of Ireland and was Chairman of the Manuscripts Commission. This book, which was first published in 1957 and now is in its sixth edition, is being reprinted for the fourth time and remains the definitive record of Irish surnames, their genealogy and their origins.

*The Basque Country* Paddy Woodworth 2012-01-10 The Basque Country is a land of fascinating paradoxes and enigmas. Home to one of Europe's oldest peoples and most mysterious languages, with a living folklore rich in archaic rituals and dances, it also boasts a dynamic post-modern energy, with the reinvention of Bilbao creating a model for the twenty-first-century city of cultural services and information technologies. Hugging the elbow of the Bay of Biscay on both the French and Spanish sides of the Pyrenees, this small territory abounds in big contrasts, ranging from moist green valleys to semi-desert badlands, from snowy sierras to sandy beaches, from harsh industrial landscapes to bucolic beech woods. This often idyllic scenery is the stage for fierce political passions. Almost every aspect of the Basque Country generates passionate disagreement, even its precise location. Spanish and French centralism, often authoritarian and sometimes brutal, has met with resistance for two centuries. Most

recently and notoriously ETA, a terrorist group with deep popular support, has engaged in a bloody 45-year conflict. But many Basques consider themselves full French or Spanish citizens, and fear political and linguistic exclusion under Basque nationalist rule.

**Mystifying the Monarch** Jeroen Deploige 2006 The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

*The Book of the Knight Zifar* Charles L. Nelson 2021-12-14 *The Book of the Knight Zifar* (or *Cifar*), Spain's first novel of chivalry, is the tale of a virtuous but unfortunate knight who has fallen from grace and must seek redemption through suffering and good deeds. Because of a

curse that repeatedly deprives him of that most important of knightly accoutrements—his horse—Zifar and his family must flee their native India and wander through distant lands seeking to regain their rank and fortune. A series of mishaps divides the family, and the novel follows their separate adventures—alternatively heroic, comic, and miraculous—until at length they are reunited and their honor restored. The anonymous author of *Zifar* based his early fourteenth-century novel on the medieval story of the life of St. Eustacius, but onto this trunk he grafted a surprising variety of narrative types: Oriental tales of romance and magic, biblical stories, moralizing fables popular since the Middle Ages, including several from Aesop, and instructions in the rules of proper knightly conduct. Humor in the form of puns, jokes, and old proverbs also runs through the novel. In particular, the foolish/wise Knave offers a comic contrast to the heroic Knight, whom he must continually rescue through the application of common sense. *Zifar* was to have an important influence on later Spanish literature, and perhaps on Cervantes' great tale of a knight and his squire, *Don Quixote*. All those with an interest in Spanish literature and medieval life will be grateful for Mr. Nelson's excellent translation, which brings to life this extraordinary early novel.

**Flights of Fantasy** Ceza Kassem 1985 **Monument Eternal** Franya J. Berkman 2010-11-15 Alice Coltrane was a composer, improviser, guru, and widow of John Coltrane. Over the course of her musical life, she synthesized a wide range of musical genres including gospel, rhythm-and-blues, bebop, free jazz, Indian devotional song, and Western art music. Her childhood experiences playing for African-American congregations in Detroit, the ecstatic and avant-garde improvisations she performed on the bandstand with her husband

John Coltrane, and her religious pilgrimages to India reveal themselves on more than twenty albums of original music for the Impulse and Warner Brothers labels. In the late 1970s Alice Coltrane became a swami, directing an alternative spiritual community in Southern California. Exploring her transformation from Alice McLeod, Detroit church pianist and bebopper, to guru Swami Turiya Sangitananda, Monument Eternal illuminates her music and, in turn, reveals the exceptional fluidity of American religious practices in the second half of the twentieth century. Most of all, this book celebrates the hybrid music of an exceptional, boundary-crossing African-American artist. Ebook Edition Note: All images in center photo section have been redacted.

*The Polish Revolution and the Catholic Church, 1788-1792* Richard Butterwick 2012 The Polish Revolution cast off the Russian hegemony that had kept the Polish-Lithuanian Commonwealth impotent for most of the eighteenth century. Before being overthrown by the armies of Catherine the Great, the Four Years' Parliament of 1788-92 passed wide-ranging reforms, culminating in Europe's first written constitution on 3 May 1791. In some respects its policies towards the Catholic Church of both rites (Latin and Ruthenian) were more radical than those of Joseph II, and comparable to some of those adopted in the early stages of the French Revolution. Policies included taxation of the Catholic clergy at more than double the rate of the lay nobility, the confiscation of episcopal estates, the equalization of dioceses, and controversial concessions to Orthodoxy. But the monastic clergy escaped almost unscathed. A method of explaining political decisions in a republican polity is developed in order to show how and why the Commonwealth went to the verge of schism with Rome in 1789-90, before drawing back. Pope Pius VI could then bless the 'mild revolution' of 3 May 1791, which Poland's clergy and monarch presented to the nobility as a miracle of Divine Providence. The stresses would be eclipsed by dechristianization in France, the dismemberment of the Commonwealth, and subsequent incarnations of unity between the Catholic Church and the Polish nation. Probing both 'high politics' and political culture', Richard Butterwick draws on

diplomatic and political correspondence, speeches, pamphlets, sermons, pastoral letters, proclamations, records of local assemblies, and other sources to explore a volatile relationship between altar, throne, and nobility at the end of Europe's Ancien Régime.

**The Garden Book** Brian Castro 2017 Brian Castro's award-winning novel, *The Garden Book*, is a meditation on loneliness, addiction and exploitation. Set in the years between the Depression and the Second World War in Australia's Dandenong Ranges, it follows the emotionally turbulent life of the beautiful Swan Hay (born Shuang He)--her marriage to the passionate yet brutal Darcy Damon, her love affair with the aviator Jasper Zenlin and her rise to literary fame overseas after her poetry is translated into French without her knowledge. Fifty years after her disappearance into institutions and a life of poverty and despair, Norman Shih--a rare-book librarian and "expert in self-effacement"--begins to piece together the life and losses of Swan. Tracking down clues from guesthouse libraries, antiquarian bookshops and Swan's own haunted writings, Shih fills out a portrait of early twentieth-century Australian lives wracked by modernist impulses of racial prejudice.
