*Ready to Write More* Karen Lourie Blanchard 2003-07 Good writing is a network of skills that can be taught, practiced, and mastered. These books present paragraph development and composition skills in clear, teachable steps. Each book offers students dependable strategies as well as opportunities to bring their own ideas and talent to the writing process. Important features of the series: Presents important organizational principles of good academic writing, including topic sentences, maintaining unity and coherence, making and supporting a point, providing clear transitions, and writing clear introductory and concluding paragraphs. Shows students how to apply these

organizational principles to major rhetorical forms: classification, cause and effect, comparison and contrast, problem and solution, writing a summary, personal expression, and essays for college applications. Offers extensive practice in every step of the writing process, including prewriting, drafting, revision, and editing. Provides individual practice on additional topics in "On Your Own" sections. Offers effective error correction and editing practice in "You Be the Editor" sections. "Ready to Write More: " Are your students ready to move beyond single-paragraph assignments? From the building blocks of good prose to writing for specific purposes, "Ready to Write More" gives readers the confidence and skills needed for longer and more complex assignments. New to this edition is an updated presentation of the writing process, new peer-editing worksheets, web-based exercises, and expanded guided practice.

**Washback in Language Testing** Liying Cheng  
2004-02-04 Washback refers to the influence of language testing on teaching and learning. This volume, at the important intersection of language testing and teaching practices, presents theoretical, methodological, and practical guidance for current and future washback studies. In the field of language testing, researchers' major interest has traditionally been focused on issues and solving problems inherent in tests in order to increase their reliability and validity. However, the

washback effect goes well beyond the test itself to include factors, such as curriculum, teacher and learner behaviors inside and outside the classroom, their perceptions of the test, and how test scores are used. Only recently have researchers started to empirically investigate the phenomenon of washback. This volume of such research serves two essential purposes by: \*providing an overview of the complexity of washback and the various contextual factors entangled within testing, teaching, and learning; and \*presenting empirical studies from around the world that offer insights into the effects of washback in specific educational contexts and models of research on which future studies can be based. The extensive use of test scores for various educational and social purposes in society nowadays makes the washback effect a high-interest phenomenon in the day-to-day educational activities of teachers, researchers, program coordinators/directors, policymakers, and others in the field of education. Washback in

Language Testing: Research Contexts and Methods is a valuable resource for those who are interested in the application of findings to actual teaching and learning situations or conduct washback research in their own contexts, including educational and psychological testing experts, as well as alternative assessment people in all fields, and for policy- and decision-makers in educational and testing organizations.

Gender Equity in STEM in Higher Education

Hyun Kyoung Ro 2021-07-11 This timely volume brings together a range of international scholars to analyse cultural, political, and individual factors which contribute to the continued global issue of female underrepresentation in STEM study and careers. Offering a comparative approach to examining gender equity in STEM fields across countries including the UK, Germany, the United States, Hong Kong, Taiwan, South Africa, and China, the volume provides a thematic breakdown of institutional

trends and national policies that have successfully improved gender equity in STEM at institutions of higher education. Offering case studies that demonstrate how policies interact with changing social and cultural norms, and impact women's choices and experiences in relation to the uptake and continuation of STEM study at the undergraduate level, the volume highlights new directions for research and policy to promote gender equity in STEM at school, university, and career levels. Contributing to the United Nations' (UN) 2030 Agenda for Sustainable Development, this text will benefit researchers, academics, and educators with an interest in science education, higher education, and gender equity in STEM fields. The text will also support further discussion and reflection around multicultural education, educational policy and politics, and the sociology of education more broadly.

**Language Across the Curriculum & CLIL in English as an Additional Language (EAL)**

**Contexts** Angel M.Y. Lin 2016-09-15 This book will be of interest to a broad readership, regardless of whether they have a background in sociolinguistics, functional linguistics or genre theories. It presents an accessible “meta-language” (i.e. a language for talking about language) that is workable and usable for teachers and researchers from both language and content backgrounds, thus facilitating collaboration across content and language subject panels. Chapters 1 to 3 lay the theoretical foundation of this common meta-language by critically reviewing, systematically presenting and integrating key theoretical resources for teachers and researchers in this field. In turn, Chapters 4 to 7 focus on issues in pedagogy and assessment, and on school-based approaches to LAC and CLIL, drawing on both research studies and the experiences of front-line teachers and school administrators. Chapter

8 provides a critical and reflexive angle on the field by asking difficult questions regarding how LAC and CLIL are often situated in contexts characterized by inequality of access to the linguistic and cultural capitals, where the local languages of the students are usually neglected or viewed unfavourably in relation to the L2 in mainstream society, and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge. In closing, Chapter 9 reviews the state of the art in the field and proposes directions for future inquiry.

**Battle Hymn of the Tiger Teachers** Katharine Birbalsingh 2019-09-03 At Michaela Community School, teachers think differently, overturning many of the ideas that have become orthodoxy in education. Here, 20 Michaela teachers explore controversial ideas that improve the lives of pupils from disadvantaged backgrounds. Michaela is blazing a trail, defying many of the received notions about what works best in schools.

**Sweetness and Light** Hattie Ellis 2010-04-28 Did you know that Abraham Lincoln and Muhammad Ali both consumed bee pollen to boost energy, or that beekeepers in nineteenth-century Europe viewed their bees as part of the family? Or that after man, the honeybee, *Apis mellifera*, is the most studied creature on the planet? And that throughout history, honey has been highly valued by the ancient Egyptians (the first known beekeepers), the Greeks, and European monarchs, as well as Winnie the Pooh? In *Sweetness and Light*, Hattie Ellis leads us into the hive, revealing the fascinating story of bees and honey from the Stone Age to the present, from Nepalese honey hunters to urban hives on the rooftops of New York City. Uncovering the

secrets of the honeybee one by one, Ellis shows how this small insect, with a collective significance so much greater than its individual size, can carry us through past and present to tell us more about ourselves than any other living creature.

Imaginative Narratives June Keir 2009

Imaginative Narratives is the first of four books in the series Text Types, written by June Keir. The series is designed to help students understand and appreciate the idea that texts differ from one another in terms of their purpose, structural features, language features and the medium in which they appear. The series introduces students to a range of text types and in this way enables them to become confident in identifying a text as a particular type and qualifies them to form expectations about its content, form and objectives. The series also functions to help students begin to write different types of text confidently and incorporate the different features of each text type accurately. The first book in the series introduces students to the text type; narrative. It

exposes students to a number of engaging stories written by the author and by popular children's storytellers so that they are able to recognise what a narrative looks like. Carefully constructed activities which are outcome linked, help students understand how characters, settings and storylines are created so that they can begin to plan and finally write their own narrative. To motivate students to write, the book is clearly divided into sections to highlight the idea that creating a narrative happens in stages. The solutions for the activities are provided at the back of the book. This series is highly recommended for any teacher teaching English in upper or lower secondary school. Includes photocopy masters.

**A Precarious Game** Ergin Bulut 2020-03-15  
A Precarious Game is an ethnographic examination of video game production. The developers that Ergin Bulut researched for almost three years in a medium-sized studio in the U.S. loved making video games that millions play. Only some,

however, can enjoy this dream job, which can be precarious and alienating for many others. That is, the passion of a predominantly white-male labor force relies on material inequalities involving the sacrificial labor of their families, unacknowledged work of precarious testers, and thousands of racialized and gendered workers in the Global South. A Precarious Game explores the politics of doing what one loves. In the context of work, passion and love imply freedom, participation, and choice, but in fact they accelerate self-exploitation and can impose emotional toxicity on other workers by forcing them to work endless hours. Bulut argues that such ludic discourses in the game industry disguise the racialized and gendered inequalities on which a profitable transnational industry thrives. Within capitalism, work is not just an economic matter, and the political nature of employment and love can still be undemocratic even when based on mutual consent. As Bulut demonstrates, rather than considering work

simply as a matter of economics based on trade-offs in the workplace, we should consider the question of work and love as one of democracy rooted in politics.

**Achieve: 1: Combined Student Book, Workbook and Skills Book** Sylvia Wheeldon 2009-08-06 The core units focus on reading, grammar and vocabulary, allowing students to consolidate their English ahead of school-leaving exams. Powerful learning Michael W. Charney 2006 "Powerful Learning is the first intellectual history of one of the great Buddhist empires of Southeast Asia, Konbaung Burma before the British conquest. The book challenges the notion of the court and the monastic order as static institutions by examining how competition

within and between them prompted major rethinking about the intellectual foundations of indigenous society and culture." --Book Jacket. Shadow Education Mark Bray 2012-05-01 In all parts of Asia, households devote considerable expenditures to private supplementary tutoring. This tutoring may contribute to students' achievement, but it also maintains and exacerbates social inequalities, diverts resources from other uses, and can contribute to inefficiencies in education systems. Such tutoring is widely called shadow education, because it mimics school systems. As the curriculum in the school system changes, so does the shadow. This study documents the scale and nature of shadow education in different parts of the region. Shadow education has been a major phenomenon in East Asia and it has far-reaching economic and social implications.

**Validating Technological Innovation** David Coniam 2016-04-18 This book discusses Hong Kong's use of onscreen marking (OSM) in public

examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high-stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Interactive Language Teaching Wilga M. Rivers 1987-02-27 Teachers and writers describe the approaches and techniques they have incorporated into their own teaching. The paperback edition is designed to help classroom teachers make language classes more participatory and communication oriented. A distinguished group of innovative teachers and writers describe, in a collection of essays, the approaches and techniques they have incorporated into their own teaching.

Second Language Pronunciation Assessment

Talia Isaacs 2016-12-22 This book is open access under a CC BY licence. It spans the areas of assessment, second language acquisition (SLA) and pronunciation and examines topical issues and challenges that relate to formal and informal assessments of second language (L2) speech in classroom, research and real-world contexts. It showcases insights from assessing other skills (e.g. listening and writing) and highlights perspectives from research in speech sciences, SLA, psycholinguistics and sociolinguistics, including lingua franca communication, with concrete implications for pronunciation assessment. This collection will help to establish commonalities across research areas and facilitate greater consensus about key issues, terminology and best practice in L2 pronunciation research and assessment. Due to its interdisciplinary nature, this book will appeal to a mixed audience of researchers, graduate students, teacher-educators and exam board

staff with varying levels of expertise in pronunciation and assessment and wide-ranging interests in applied linguistics.

Critical Issues in South African Education Charl C. Wolhuter 2020-12-31 The main thesis of this book is that, given that South African education faces major challenges, the BRICS (Brazil, Russia, India, China and South Africa) constellation of states offers — thus far overlooked — a valuable tertium comparationis, a source of international comparative perspectives, to inform the domestic scholarly discourse on education. This book first investigates the national contexts and development of education in the BRICS countries, arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives. The book consists of chapters arguing for and illustrating this thesis from a variety of angles. Common to all chapters is that authors used the comparative method in

education, that is comparing the national education system, in their education societal context interrelationships, of the BRICS countries. The chapters focus on a number of critical issues in South African education, including the language of learning and teaching issue, the alignment of the world of education with the world of work, early childhood education, and the development of world-class universities. Regarding the last, for example, China has been the terrain of the most intensive national projects of establishing world-class universities, with Project 985, Project 211, and the “Double First Class University” project. The chapters demonstrate what South Africa, in approaching her education issues, can learn from the experience of the BRICS countries.

**English Language Teaching in Nepal** David Hayes (Editor) 2018

*The Politics of English in Hong Kong* Jette G. Hansen Edwards 2018-11-14 The focus of this book is on the impact of politics on language and

identity in Hong Kong. The book is the first study to track real time language attitude changes against a divisive political landscape. It is also the most comprehensive study of language attitudes in Hong Kong to date, taking place over four years with over 1600 participants. Through both survey and interview data, a multifaceted portrait of language change in progress is presented, providing a more nuanced and complex view of language and identity than has previously been presented. The book examines the status of Hong Kong English in the light of attitudes towards Cantonese, English, and Putonghua, providing a deeper analysis of the linguistic complexity of Hong Kong; it can be argued that one cannot understand attitudes towards Hong Kong English without fully understanding the status and use of English in Hong Kong today. The book also presents a complex examination of language attitudes in Hong Kong by focusing not only on the what of language attitudes, but also

the question of for whom, through an analysis of language attitudes by gender, age, identity, and speaking HKE.

**What is a Superhero?** Robin S. Rosenberg PhD 2013-07-01 It's easy to name a superhero-- Superman, Batman, Thor, Spiderman, the Green Lantern, Buffy the Vampire Slayer, Rorschach, Wolverine--but it's not so easy to define what a superhero is. Buffy has superpowers, but she doesn't have a costume. Batman has a costume, but doesn't have superpowers. What is the role of power and superpower? And what are supervillains and why do we need them? In *What is a Superhero?*, psychologist Robin Rosenberg and comics scholar Peter Coogan explore this question from a variety of viewpoints, bringing together contributions from nineteen comic book experts--including both scholars in such fields as cultural studies, art, and psychology as well as leading comic book writers and editors. What emerges is a kaleidoscopic portrait of this most popular of pop-culture figures. Writer Jeph Loeb,

for instance, sees the desire to make the world a better place as the driving force of the superhero. Jennifer K. Stuller argues that the female superhero inspires women to stand up, be strong, support others, and most important, to believe in themselves. More darkly, A. David Lewis sees the indestructible superhero as the ultimate embodiment of the American "denial of death," while writer Danny Fingeroth sees superheroes as embodying the best aspects of humankind, acting with a nobility of purpose that inspires us. Interestingly, Fingeroth also expands the definition of superhero so that it would include characters like John McClane of the *Die Hard* movies: "Once they dodge ridiculous quantities of machine gun bullets they're superheroes, cape or no cape." From summer blockbusters to best-selling graphic novels, the superhero is an integral part of our culture. *What is a Superhero?* not only illuminates this pop-culture figure, but also sheds much light on the fantasies and beliefs of

the American people.

**The Rattle Bag** Seamus Heaney 2005-03-17 A collection of more than 400 hundred poems from all around the world.

**A Fabumouse School Adventure (Geronimo Stilton #38)** Geronimo Stilton 2011-12-01

Enter the world of Geronimo Stilton, where another funny adventure is always right around the corner. Each book is a fast-paced adventure with lively art and a unique format kids 7-10 will love. When my nephew, Benjamin, invited me to Career Day at his school, things did not turn out the way I expected. I caused a volcanic explosion, got tangled in the tunnel slide on the playground, and accidentally let the class's pet gecko out of its cage! Rat munching rattlesnakes -- how was I going to get myself out of this mess?

The Oxford Book of English Short Stories

Antonia Susan Byatt 1999 The Oxford Book of English Short Stories, edited by A. S. Byatt, who has published several collections of short stories, is the first anthology to take the English short

story as its theme. The thirty-seven stories featured here are selected from the nineteenth and twentieth centuries, by authors ranging from Dickens, Trollope, and Hardy to J. G. Ballard, Angela Carter, and Ian McEwan, though many draw ingeniously from the richness of earlier English literary writing. There are all sorts of threads of connection and contrast running through these stories. Their subjects vary from the sublime to the ridiculous, from the momentous to the trivial, from the grim to the farcical. There is English empiricism, English pragmatism, English starkness, English humour, English satire, English dandyism, English horror, and English whimsy. There are examples of social realism, from rural poverty to blitzed London; ghost stories and tales of the supernatural; surreal fantasy and science fiction. There are stories of sensibility, precisely delineated, from Hardy's reluctant bride to the shocked heroine of Elizabeth Taylor's *The Blush*, from H. E. Bates's brilliant fusion of class, sex,

death, and landscape, to D. H. Lawrence's exploration of a consciousness slowly detaching itself from its world. There are exuberant stories by Saki and Waugh, Wodehouse and Firbank, with a particularly English range from high irony to pure orchestrated farce. The very range and scope of the collection celebrates the eccentric differences and excellences of English short stories. Some of A. S. Byatt's choices clearly take their place in the grand tradition of story-telling, while others are more unusual. Many break all the rules of unity of tone and narrative, appearing to be one kind of story before unexpectedly turning into another. They pack together comedy and tragedy, farce and delicacy, elegance and the grotesque, with language as various as the subject-matter. As A. S. Byatt explains: 'My only criterion was that those stories I selected should be startling and satisfying, and if possible make the hairs on the neck prickle with excitement, aesthetic or narrative.'

**The Action-oriented Approach** Enrica Piccardo 2019-07-24 This book presents the background to the current shift in language education towards action-oriented/action-based teaching, and provides a theorization of the Action-oriented Approach (AoA). It discusses the concepts and theories that paved the way for the AoA and explores their relevance for the way language education is conceived and implemented in the classroom. In the process, it revisits the concept of competence and discusses the dynamic notions of mediation and plurilingualism. The authors explain the way in which the Common European Framework of Reference for Languages (CEFR) and its recent update, the CEFR Companion Volume, broaden the scope of language education, in particular in relation to the actional turn. The book provides scholars and practitioners with a research-informed description of the AoA, explains its implications for curriculum planning, teaching and assessment, and elaborates on its

pedagogical implications.

Globalization and the Singapore Curriculum

Zongyi Deng 2013-11-27 This volume provides a multi-faceted and critical analysis of the Singapore curriculum in relation to globalization. First, it details reform initiatives established by the Singapore government to meet the challenges posed by globalization. Next, *Globalization and the Singapore Curriculum* presents how these reforms have been translated into programs, school subjects and operational frameworks and then examines, in turn, how well these have been implemented in schools and classrooms across the country. Through this examination, the book reveals how the initiatives, together with their curricular translation and classroom enactment, reflect on the one hand global features and tendencies and, on the other, distinct national traditions, concerns and practices. It brings to light a set of issues, problems and challenges that not only concern policymakers, educators and reformers

in Singapore but also those in other countries as well. Written by curriculum scholars, policy analysts, researchers and teacher educators, *Globalization and the Singapore Curriculum* offers an up-to-date reference for postgraduate students, scholars and researchers in the areas of curriculum and instruction, comparative education, educational sociology, educational policy and leadership in Singapore, the Asia Pacific region and beyond. It also offers a vital contribution to the story of modern education around the globe: providing international students, scholars and researchers valuable insights into curriculum and curriculum reform for the 21st century.
