Hybrid Polymeric Nanocomposites from

Agricultural Waste Sefiu Adekunle Bello

2022-10-17 Hybrid Polymeric Nanocomposites from Agricultural Waste examines the use of agricultural by-products for green production of new materials. It covers nanoparticle synthesis from agricultural wastes and nanocomposite development with a focus on polyethylene, polylactic acid, polymethylmethacrylate, and epoxy resins, and considers possible biomedical and engineering applications. Showcases agricultural waste as polymer reinforcements to replace expensive synthetic fibres that discourage wide polymeric nanocomposite applications. Discusses green synthesis and characterisation of hybrid nanocomposites from polylactic acid, polymethylmethacrylate, recycled/new polyethylene, and epoxy resins. Contrasts hybrid nanocomposites properties with standard nanocomposites, using automotive case studies. The book is aimed at researchers, advanced students, and industrial professionals in materials, polymer, and mechanical engineering and related areas interested in the development and application of sustainable materials.

Altbach 2014-06-23 This encyclopedia is the result of a highly selective enterprise that provides a careful selection of key topics in essays written by top scholars in their fields. Comprehensive and in-depth coverage of a

limited number of countries, regions and themes is provided. The essays not only feature statistical and factual information but significant interpretation of those facts and figures. The chapters on themes and topics are both analytic and interpretative and deal with the most important topics relevant to higher education everywhere. More than a compendium of facts and figures the encyclopedia is a comprehensive overview of a growing field of research and analysis.

NIGHTMARE PETER EIKHUEMELO

2023-09-21 God gave man the gift of freedom or the power to choose. It is up to you to decide who you let walk away, who you let stay, and who you refuse to let go." Nightmare exposes to us a brilliant young man with dreams to become a medical doctor in his village and to build a health Centre in his community. Clement work so hard to get admission into higher institution of learning after his classmates had got admission before him. He graduated, after his National Youth Service, Clement could not get a job after so many years of job hurting, he was frustrated and decided to join the men of the underworld to make it in life. The author unravels the mystery surrounding Clement's life his dream and destiny.

What About Us? Global Perspectives on

Redressing Religious Inequalities Mariz Tadros

2022-10-26 How can we make religious equality

a reality for those on the margins of society and

politics? This book is about the individual and

collective struggles of the religiously

marginalised to be recognised and their

inequalities, religious or otherwise, redressed. It

is also about the efforts of civil society,

governments, multilateral actors, and scholars to

promote freedom of religion or belief whatever

shape they take. The actors and contexts that

feature in this book are as diverse as health

workers in Israel, local education authorities in

Nigeria, indigenious movements in India,

Uganda, or South Africa, and multilateral actors

such as the Islamic Development Bank in Sudan

and the World Bank in Pakistan. Some of the

case studies engage with development

discourses and narratives or are undertaken by

development actors, while other cases operate

completely outside the international

development paradigm. These case studies

present some important insights, which while

highly relevant for their contexts also draw out

important insights for academics, practitioners,

activists, and others who have an interest in

redressing religious inequalities for

socioeconomically marginalised populations.
