Exploring Chemistry Laboratory Experiments in General, Organic and
Biological Chemistry Julie R. Peller 2003-04 This lab manual is organized
and written to ensure that non-science majors are comfortable with
chemistry labs by making the experiments more applicable to students'
daily lives. This approach also serves to make the experiments more
understandable. Many labs relate specifically to allied health fields.

Laboratory Manual for Principles of General Chemistry J. A. Beran
2022-09-22 Laboratory Manual for Principles of General Chemistry 11
Edition covers two semesters of a general chemistry laboratory program.
The material focuses on the lab experiences that reinforce the concepts
that not all experimental conclusions are the same and depend on
identifying an appropriate experimental procedure, selecting the proper
apparatus, employing the proper techniques, systematically analyzing
and interpreting the data, and minimizing inherent variables. As a result
of "good" data, a scientific and analytical conclusion is made which may
or may not "be right," but is certainly consistent with the data.

Experiments write textbooks, textbooks don't write experiments. A
student's scientific literacy grows when experiences and observations
associated with the scientific method are encountered. Further
experimentation provides additional "cause & effect" observations
leading to an even better understanding of the experiment. The 11th
edition's experiments are informative and challenging while offering a
solid foundation for technique, safety, and experimental procedure. The
reporting and analysis of the data and the pre- and post-lab questions
focus on the intuitiveness of the experiment. The experiments may
accompany any general chemistry textbook and are compiled at the
beginning of each curricular unit. An "Additional Notes" column is
included in each experiment's Report Sheet to provide a space for
recording observations and data during the experiment. Continued
emphasis on handling data is supported by the "Data Analysis" section.
