**Navigating Ethical Dilemmas in Creative Arts Therapies** Thomson J. Ling 2021-12-28 Navigating Ethical Dilemmas in Creative Arts Therapies uses a case-based approach to provide practical guidance for practitioners on the skillful application of ethical decision-making in art therapy. The book introduces the DO ART model, an ethical decision-making model specific to the practice of art therapy. Walking readers through common areas of ethical dilemmas, chapters detail how art-making can be used to navigate the model, supporting the well-documented practice of art therapists engaging in art-making processes themselves. Topics covered include boundaries and confidentiality, assessment, storage and exhibition, materials, multicultural issues, technology in art therapy, working with vulnerable populations, supervision and training, and ethical research. Art therapists at all levels will find this book to be a necessary resource for their practice.

*The Early Years Handbook for Students and Practitioners* Lyn Trodd 2016-02-05 The Early Years Handbook for Students and Practitioners is a comprehensive and accessible course text for all students studying at levels 4 and 5, including on Foundation Degrees and Early Childhood Studies degrees. Designed and written by the Chair of the SEFDEY (Sector-Endorsed Foundation Degree in Early Years) Network and a team of expert contributors, this book covers the essential skills, knowledge and understanding you need to become an inspiring and effective early years practitioner. Divided into four parts: The Student-Practitioner-Professional; The Learning and Development of Children 0-5; The Child, Family and Society; and The Senior Practitioner-Professional, the book covers all aspects of working with young children and engages you with theory that is explicitly linked to your practice. Throughout there is a strong emphasis on supporting your transition to undergraduate study, developing your academic skills and encouraging you to be an active learner. In every chapter, the book seeks to help you develop your professional identity and features: Activities to help you to reflect on your own practice 'Provocations' to promote discussion and debate Case study examples and photographs to illustrate key points 'From Research to Practice' boxes outlining key research in the field and implications for practice. The book is supported by a companion website featuring, for students, links to useful websites and video material, and an interactive flashcard glossary. Online support for lecturers includes ideas for tasks and activities to use in class and the diagrams and images in the book available to download.

**Twenty-Five Years of the Life Review** Robert Disch 2014-09-03 In this thought-provoking book, professionals in the field of aging examine the history and concept of the life review. The life review--a theory about the nature of the life cycle first presented in 1962--has become a foundation for program development with the elderly. This unique analysis of the life review goes beyond the early formulation both in theory and practice. Critics of the life review suggest ways in which the theory can be modified and expanded and offer several unique methods of creatively

adapting these criticisms and changes to practical purposes. Proponents of the life review--while emphasizing that reminiscence is not a panacea--proclaim its historical, educational, and therapeutic value.

**The art of The Faerie Queene** Richard Danson Brown 2019-01-15 The Art of The Faerie Queene is the first book centrally focused on the forms and poetic techniques employed by Spenser. It offers a sharp new perspective on Spenser by rereading The Faerie Queene as poetry which is at once absorbing, demanding and experimental. Instead of the traditional conservative model of Spenser as poet, this book presents the poem as radical, edgy and unconventional, thus proposing new ways of understanding the Elizabethan poetic Renaissance. The book moves from the individual words of the poem to metre, rhyme and stanza form onto its larger structures of canto and book. It will be of particular relevance to undergraduates studying Elizabethan poetry, graduate students and scholars of Renaissance poetry, for whom the formal aspect of the poetry has been a topic of growing relevance in recent years.

**The impact of art therapy on mental health and well-being** Helena José 2023-12-22 In 2019 the WHO came out with a scoping review related to the evidence on the role of the arts in improving health and well-being. In the last yeast, in fact, literature has recognized the direct and indirect benefits of art in the prevention and promotion of mental and physical health and in the management and treatment of disease. Although some countries have made progress in developing policies that make use of the arts to support health and well-being, many have not yet addressed the opportunities that exist for using the arts to support health, and for others policy activities have been time limited. Nonetheless, the relationship between art and health has existed since the birth of medicine itself and has strongly influenced its history and its evolution. Art therapy is the main expression of art in health care. The integration of art in traditional health assistance paths sustains the need to have a holistic approach to health, wellness, and well-being both of patients and other stakeholders, including caregivers and healthcare professionals. Currently the main area of art therapy application is mental health with especially regards to disability, both in developmental

age and in elderly and both to cognitive and physical impairment and dementia. However, it is important to remark that mental health does not only refer to mental illness, but also to people's emotional, psychological, and social well-being. These last cases have particularly worsened with the long lockdown periods due to the COVID-19 pandemic.

*The Copyright/Design Interface* Estelle Derclaye 2018-03-08 Protecting designs is complex and diverse; it involves deciding whether to protect them by design law, copyright law, or by both laws. A single protection may be under- or overprotective but two or more can be overprotective if there are no rules regulating the overlap. Legal systems in Europe and abroad have struggled to find the most adequate solution to this problem. This book traces the history of the design/copyright interface of fifteen countries, selected for their diversity in the way they dealt with the interface. It examines how these countries have coped with the problems engendered by the interface, the rules they applied to it over time and the reasons for legislative changes. This analysis reveals the most appropriate rules to regulate the interface at EU and global level and will appeal to academics, practising lawyers, judges, students and policymakers all over the world.

### **Healing from Clinical Trauma Using Creative Mindfulness**

**Techniques** Corinna M. Costello 2021-09-09 This workbook offers diverse strengths-based tools to incorporate the Creative Mindfulness Technique (CMT) into clinical practice. It provides an essential understanding of the ethical scope of practice, ensuring that clinicians consider the depth of their own training in the implementation of the CMT art directives. Chapters explore aspects such as attachment and art therapy, multicultural considerations when using art with clients, mindfulness, the eight dimensions of wellness, and the application of CMT techniques with clients affected by PTSD, anxiety, and low self-esteem. The creative activities, mindfulness approaches, and arts-based exercises provided support the healing process of clients in ways that are accessible, practical, and easy to execute. Examples of activities include guided imageries with art-making, art journaling directives, and mixed media prompts. Through these exercises, clients will learn to draw upon

their strengths and feel empowered in their daily lives. People with PTSD/clinical trauma, stress, addiction, and anxiety, and clinicians and mental health practitioners working with them will find this book to be an essential tool. Readers may also be interested in *Creative Mindfulness Techniques for Clinical Trauma Work: Insights and Applications for Mental Health Practitioners*, which can be used on its own or as a companion to this book.

### **Creative Arts-Based Research in Aged Care** Evonne Miller

2021-03-30 This timely book explores what it is like to live in an aged care home: the expectations that new residents and their families enter with, their relationships with fellow residents and formal caregivers, and how they approach, in different ways, the reality that this place is where they will die. *Creative Arts-Based Research in Aged Care* draws on an immersive semi-longitudinal four-year study and purposely privileges the voices and perspective of older residents. Using creative arts-based qualitative research methods, specifically participatory photography and research poetry, it demonstrates the experience of contemporary aged care from the perspective of those who matter most: older residents. Divided into three parts covering entering residential aged care, daily life in aged care and dying in aged care, the book stimulates debate and discussion about current practice, and the future of aged care in the context of rapid population ageing and care automation. It is essential reading for all scholars and students working in the fields of gerontology, social work, psychology, design, and nursing, particularly those tasked with redesigning aged care in the twenty-first century.

**ECRM2014-Proceedings of the 13th European Conference on Research Methodology for Business and Management Studies**

Dr Martin Rich 2014-06-16

Practice-based Design Research Laurene Vaughan 2017-01-26 Practice-Based Design Research provides a companion to masters and PhD programs in design research through practice. The contributors address a range of models and approaches to practice-based research, consider

relationships between industry and academia, researchers and designers, discuss initiatives to support students and faculty during the research process, and explore how students' experiences of undertaking practice-based research has impacted their future design and research practice. The text is illustrated throughout with case study examples by authors who have set up, taught or undertaken practice-based design research, in a range of national and institutional contexts.

Performative Language Learning with Refugees and Migrants Erika Piazzoli 2024-03-29 This book investigates the use of performative language pedagogy in working with refugees and migrants, exploring performative language teaching as the application of drama, music, dance and storytelling to second language acquisition. Documenting a community-based project - funded by the Irish Research Council and conducted with three groups of refugees and migrants in Ireland and Italy - the book explores the methodological, pedagogical and ethical elements of performative language learning in the context of migration. Written by a team of arts-based researchers and practitioners, chapters discuss findings from the project that relate to factors such as embodied research methods, a motivation to belong and the ethical imagination, while exhibiting how performative language pedagogy can be effective in supporting children and adults in a range of challenging contexts.

Offering a poetic and pictorial representation of the Sorgente Project, this book will be of interest to postgraduate students, researchers and academics in the fields of English language arts and literacy education, drama in education, the sociology of education and second language acquisition more broadly. Those working in refugee and migrant studies, and teacher education studies will also find the volume of use.

**The Oxford Handbook of Group Creativity and Innovation** Paul B. Paulus 2019-04-30 Although creativity is often considered an individual ability or activity, innovation in teams and organizations involves collaboration of people with diverse perspectives, knowledge, and skills. The effective development of collaborative innovations and solutions to problems is critical to the success of teams and organizations, but research has also demonstrated many factors which tend to limit the effectiveness of collaborative innovation of groups and teams. This volume highlights recent theoretical, empirical, and practical developments that provide a solid basis for the practice of collaborative innovation and future research. It draws from a broad range of research perspectives including cognition, social influence, groups, teams, creativity, communication, networks, information systems, organizational psychology, engineering, computer science, and the arts. This volume is an important source of information for students, scholars, practitioners, and others interested in understanding the complexity of the group creative process and tapping the creative potential of groups and teams.

**Desired Artistic Outcomes in Music Performance** Gilvano Dalagna 2020-10-01 Desired Artistic Outcomes in Music Performance is about empowering musicians to achieve their professional and personal goals in music. The narrative argues that developing musicians should be supported in conceptualizing and achieving their desired artistic outcomes (DAO), as these have been recognized as key elements in a successful career transition in and beyond their studies in higher education. The text explores the nature of DAO and illustrates how higher education students can be enabled to explore and develop these. The book draws on the findings from a range of exploratory studies which: Bring to light connections between contemporary topics in music, such as artistic research and career development; Contribute to existing

discussions on innovative pedagogical approaches in higher education in music; and Offer theoretical models to support the broad artistic and professional development in young musicians. This is a text grounded in theory and practice, and which draws on case study examples, as well as historical perspectives and coverage of contemporary issues regarding employment in the music industries. The book will be of particular interest to aspiring music professionals and all those working in the areas of Music Education, Performance Studies and Artistic Research.  
**Entrepreneurial Behaviour** Andrea Caputo 2020-08-28 The success, longevity, and survival of SMEs are deeply linked to the effectiveness of individual decision-making processes, and established firms need to develop an entrepreneurial and innovative decision-making processes to maintain competitive advantages in a continuously changing and increasingly turbulent environment.

**Diverse Voices in Chinese Translation and Interpreting** Riccardo Moratto 2021-02-02 This book presents a thoughtful and thorough account of diverse studies on Chinese translation and interpreting (TI). It introduces readers to a plurality of scholarly voices focusing on different aspects of Chinese TI from an interdisciplinary and international perspective. The book brings together eighteen essays by scholars at different stages of their careers with different relationships to translation and interpreting studies. Readers will approach Chinese TI studies from different standpoints, namely socio-historical, literary, policy-related, interpreting, and contemporary translation practice. Given its focus, the book benefits researchers and students who are interested in a global scholarly approach to Chinese TI. The book offers a unique window on topical issues in Chinese TI theory and practice. It is hoped that this book encourages a multilateral, dynamic, and international approach in a scholarly discussion where, more often than not, approaches tend to get dichotomized. This book aims at bringing together international leading scholars with the same passion, that is delving into the theoretical and practical aspects of Chinese TI.

**Handbook of Cultural Studies and Education** Peter Pericles Trifonas 2018-11-15 The Handbook of Cultural Studies in Education brings

together interdisciplinary voices to ask critical questions about the meanings of diverse forms of cultural studies and the ways in which it can enrich both education scholarship and practice. Examining multiple forms, mechanisms, and actors of resistance in cultural studies, it seeks to bridge the gap between theory and practice by examining the theme of resistance in multiple fields and contested spaces from a holistic multi-dimensional perspective converging insights from leading scholars, practitioners, and community activists. Particular focus is paid to the practical role and impact of these converging fields in challenging, rupturing, subverting, and changing the dominant socio-economic, political, and cultural forces that work to maintain injustice and inequity in various educational contexts. With contributions from international scholars, this handbook serves as a key transdisciplinary resource for scholars and students interested in how and in what forms Cultural Studies can be applied to education.

**Shooting at the Stars** John Hendrix 2014-10-07 Shooting at the Stars is the moving story of a young British soldier on the front lines during World War I who experiences an unforgettable Christmas Eve. In a letter to his mother, he describes how, despite fierce fighting earlier from both sides, Allied and German soldiers ceased firing that evening and came together on the battlefield to celebrate the holiday. They sang carols, exchanged gifts, and even lit Christmas trees. But as the holiday came to a close, they returned to their separate trenches to await orders for the war to begin again. Award-winning creator John Hendrix wonderfully brings the story of the Christmas Truce of 1914 to life with his signature style, interweaving detailed illustrations and hand-lettered text. His telling of the story celebrates the humanity that can persist during even the darkest periods of our history.

The Cambridge Handbook of Lifespan Development of Creativity Sandra W. Russ 2021-11-25 This handbook focuses on the development and nurturance of creativity across the lifespan, from early childhood to adolescence, adulthood, and later life. It answers the question: how can we help individuals turn their creative potential into achievement? Each chapter examines various contexts in which creativity exists, including

school, workplace, community spaces, and family life. It covers various modalities for fostering creativity such as play, storytelling, explicit training procedures, shifting of attitudes about creative capacity, and many others. The authors review research findings across disciplines, encompassing the work of psychologists, educators, neuroscientists, and creators themselves, to describe the best practices for fostering creativity at each stage of development.

*Counseling and Psychotherapy* David Capuzzi 2022-03-29 This foundational text offers dynamic and fresh perspectives on theories across the helping professions to help guide client case conceptualization and therapeutic transformation. A diverse group of topical experts provides contemporary insight on the following theories: relational-cultural, psychodynamic, Jungian, Adlerian, existential, person-centered, Gestalt, cognitive behavioral, third-wave cognitive behavioral, rational emotive, reality therapy/choice, family, feminist, constructivist, and emotion-focused theories, as well as creative approaches to counseling used in a variety of theoretical models. Each theory is discussed in terms of historical background; human nature and development; major constructs; applications, including goals, the process of change, traditional and brief interventions, and serious mental health issues, supporting research and limitations; and the case of Clarita. The use of a consistent case study across chapters reinforces the differences between theories and demonstrates how each theory influences the counseling and treatment plan. A complimentary test manual and PowerPoints for instructor use are available by request. \*Requests for digital versions from ACA can be found on [www.wiley.com](http://www.wiley.com) \*To purchase print copies, please visit the ACA website <https://imis.counseling.org/store/> \*Reproduction requests for material from books published by the ACA should be directed to [permissions@counseling.org](mailto:permissions@counseling.org)

**Curriculum in Early Childhood Education** Jennifer J. Mueller 2019-06-18 Curriculum in Early Childhood Education: Re-examined, Reclaimed, Renewed critically and thoroughly examines key questions, aims, and approaches in early childhood curricula. Designed to provide a theoretical and philosophical foundation for examining teaching and

learning in the early years, this fully updated and timely second edition provokes discussion and analysis among all readers. What influences operate (both historically and currently) to impact what happens in young children's classrooms? Whose perspectives are dominant and whose are ignored? What values are explicit and implicit? Each chapter gives readers a starting point for re-examining key topics, encourages a rich exchange of ideas in the university classroom, and provides a valuable resource for professionals. This second edition has been fully revised to reflect the current complexities and tensions inherent in curricular decision-making and features attention to policy, standardization, play, and diversity, providing readers with historical context, current theories, and new perspectives for the field. Curriculum in Early Childhood Education is essential reading for those seeking to examine curriculum in early childhood and develop a stronger understanding of how theories and philosophies intersect with the issues that accompany the creation and implementation of learning experiences.

**International Perspectives on Disability Exceptions in Copyright Law and the Visual Arts** Jani McCutcheon 2020-09-27 This book provides an overview of disability exceptions to copyright infringement and the international and human rights legal framework for disability rights and exceptions. The focus is on those exceptions as they apply to visual art, while the book presents a comprehensive study of copyright's disability exceptions per se and the international and human rights law framework in which they are situated. 3D printing now allows people with a visual impairment to experience 3D reproductions of paintings, drawings and photographs through touch. At the same time, the uncertain application of existing disability exceptions to these reproductions may generate concerns about legal risk, hampering sensory art projects and reducing inclusivity and equity in cultural engagement by people with a visual impairment. The work adopts an interdisciplinary approach, with contributions from diverse stakeholders, including persons with disabilities, cultural institutions and the 3D printing industry. The book sketches the scene relating to sensory art

projects. Experts in intellectual property, human rights, disability and art law then critically analyse the current legal landscape relating to disability access to works of visual art at both international and regional levels, as well as across a broad representative sample of national jurisdictions, and identify where legal reform is required. This comparative analysis of the laws aims to better inform stakeholders of the applicable legal landscape, the legal risks and opportunities associated with sensory art and the opportunities for reform and best practice guidelines, with the overarching goal of facilitating international harmonisation of the law and enhanced inclusivity.

**Strategic Questions in Food and Beverage Management** Roy C Wood 2018-01-03 This book provides students with a series of critical reviews of issues in food and beverage management addressing a variety of managerial dilemmas of a more complex nature such as how important is the meal experience and is food an art form? These are accompanied by discussion points, questions, and case studies to aid application, critical thinking and analysis. Written by leading hospitality academic, this short critical yet accessible text will be value for all future hospitality managers

**Counseling Children and Adolescents** Sondra Smith-Adcock 2016-03-09 *Counseling Children and Adolescents: Connecting Theory, Development, and Diversity* reviews the most relevant theoretical approaches for counseling children and focuses on connecting key theories to application using case studies. The book's approach is broad, addressing a range of ages, approaches, and interventions that are applicable to varied settings. Sondra Smith-Adcock and Catherine Tucker have laid out an integrated framework that focuses on development and diversity. In addition, a unique aspect of this text is its focus on neuroscience, the developing brain, and the impact of early childhood trauma on development. Each chapter in the text includes a set of case illustrations, guided activities for the student to apply independently and in the classroom, and a list of resources in print, on the web, and on film. *Counseling Children and Adolescents: Connecting Theory, Development, and Diversity* is part of the SAGE Counseling and Professional Identity

Series, which targets specific competencies identified by CACREP (Council for Accreditation of Counseling and Related Programs). To learn more about each text in the series, please visit [www.sagepub.com/cpiseriess](http://www.sagepub.com/cpiseriess).

**British Music Videos 1966 - 2016** Emily Caston 2020-07-31 Based on new archival evidence and interviews, and setting out a new theoretical framework for music video analysis, Emily Caston presents a major new analysis of music videos from 1966-2016, identifying not only their distinctive British traits, but their parallels with British film genres and styles. By analysing the genre, craft and authorial voice of music video within the context of film and popular music, the book sheds new light on existing theoretical and historical questions about audiences, authorship, art and the creative industries. Far from being an American cultural form, the book reveals music video's roots in British and European film traditions, and suggests significant ways in which British video has impacted popular film and music culture.

**Constructing Methodology for Qualitative Research** Bobby Harreveld 2016-08-29 This book explores the webs of vulnerability in methodological decision-making that illustrate the deceptive strength of qualitative research. Each chapter will resonate with readers differently as they read themselves into the tensions and tangles of qualitative research when confronted with the challenges of establishing methodological frameworks for educational and social enquiry. The authors are postgraduate, early career researchers and supervisors who analyse their methodological encounters with the nimble, fluid, messy and iterative processes of qualitative research. The book flows structurally from positioning the researcher within these processes to the manoeuvring of self across necessarily selective social science disciplines in education, arts and humanities. It rejuvenates the pioneering spirit, the sense of mission and innovativeness of qualitative research.

**Developmental-Behavioral Pediatrics** Heidi M Feldman 2022-08-18 Addressing the major advances in biomedical, psychological, social, and environmental sciences over the past decade, Developmental-Behavioral

Pediatrics, 5th Edition, remains the reference of choice for professionals in a wide range of fields, including medicine and health care, education, social service, advocacy, and public policy. This foundational, pioneering resource emphasizes children's assets and liabilities, not just categorical labels. Comprehensive in scope, it offers information and guidance on normal development and behavior, psychosocial, and biologic influences on development, developmental disorders, neurodevelopmental disabilities, and mental health conditions. It also discusses tools and strategies for diagnosis and management, including new assessments that can be used in telehealth encounters. Offers a highly practical focus, emphasizing clinical approaches to evaluation, counseling, treatment, and ongoing care. Provides new or expanded information on theoretical foundations of human development and behavior; trauma, adverse childhood events, and resilience across the life span; mechanisms of genetic, epigenetic, and neurological conditions; and principles of psychological assessment, including a broad array of evaluation approaches. Discusses management and treatment for developmental and behavioral conditions, spanning common factors, cognitive behavior therapies, rehabilitative services, integrative medicine, and psychopharmacology. Contains up-to-date chapters on celebrating socio-cultural diversity and addressing racism and bias, acute stress and post-traumatic stress disorder in youth, sexuality and variation, and alternatives to restrictive guardianship. Begins each chapter with a colorful vignette that demonstrates the importance of the human dimensions of developmental-behavioral pediatrics. Offers viewpoints from an interdisciplinary team of editors and contributors, representing developmental-behavioral pediatrics, general pediatrics, psychiatry, psychology, occupational and physical therapy, speech-language pathology, and law. Provides the latest drug information in the updated and revised chapters on psychopharmacology. Includes key points boxes, tables, pictures, and diagrams to clarify and enhance the text.

**Intermediary Liability and Trade in Follow-on Innovation** Alexander Cuntz 2021-10-12 Liability rules affect the incentives of intermediaries to disseminate and curate creative works, in particular when works build on

the work of predecessors and they are potentially infringing copyright. In an application to the visual arts, we show that appropriation artists borrow images from different sources and incorporate them into new, derivative works of art. By doing so, they risk infringing copyright but also put commercial trade and availability of the work at litigation risk as liability can extend to intermediaries in markets (auction houses) or in public exhibitions (museums). Using a differences-in-differences model and unique data on the level of the individual art work, we empirically investigate the impact of the prominent 2013 *Cariou v. Prince* U.S. court decision on trade and availability in Appropriation Art.

Making Art With Generative AI Tools Hai-Jew, Shalin 2024-04-01 In the dynamic realm of generative artificial Intelligence (AI), the fusion of human creativity and machine intelligence has created a vibrant ecosystem of collaborative artmaking. However, this transformative process brings forth a myriad of concerns, ranging from ethical considerations and the need for originality to navigating the legal complexities surrounding intellectual property. As more and more online communities appear around the use of AI to aid in the creation of images, there arises a pressing need for a comprehensive guide that not only dissects the intricacies of artmaking with generative AI tools but also offers practical solutions to the evolving dilemmas faced by artists, researchers, and technologists. *Making Art With Generative AI Tools* emerges as an exploration of the challenges posed by this intersection of human expression and artificial intelligence. Artists engaging with generative AI find themselves grappling with issues of authenticity, social toxicity, and the commercial viability of their creations. From avoiding stereotypical visuals to ensuring proper crediting, the realm of generative AI is rife with these complexities. Furthermore, the blurred lines between human and machine authorship necessitate a deeper exploration of how these innovative tools impact creativity, representation, and the very fabric of the art world.

**Appraising the Appraisal: The Art of Appraisal Review** Richard C. Sorenson 2010

**A critical appraisal of research in arts, health and wellbeing**

Stephen Clift 2023-06-23

Teaching Geography Creatively Stephen Scoffham 2016-10-04 *Teaching Geography Creatively* was Winner of the Geographical Association Gold Award 2014 and Winner of the Geographical Association Silver Award 2017. This fully updated second edition of *Teaching Geography Creatively* is a stimulating source of guidance for busy trainee and experienced teachers. Packed full of practical approaches for bringing the teaching of geography to life, it offers a range of innovative ideas for exploring physical geography, human geography and environmental issues. Underpinned by the very latest research and theory, expert authors from schools and universities explore the inter-relationship between creativity and learning, and consider how creativity can enhance pupils' motivation, self-image and well-being. Two brand new chapters focus on creative approaches to learning about the physical world, as well as the value of alternative learning settings. Further imaginative ideas include: games and starter activities as entry points for creative learning how to keep geography messy the outdoors and learning beyond the classroom how to teach geography using your local area the links between geography and other areas of the curriculum looking at geography, creativity and the future fun and games in geography engaging with the world through picture-books teaching about sustainability. With contemporary, cutting-edge practice at the forefront, *Teaching Geography Creatively* is an essential read for all trainee and practicing teachers, offering a variety of practical strategies to create a fun and stimulating learning environment. In the process it offers a pedagogy that respects the integrity of children as joyful and imaginative learners and which offers a vision of how geography can contribute to constructing a better and more equitable world.

The Palgrave Handbook on Art Crime Saskia Hufnagel 2019-06-27 This handbook showcases studies on art theft, fraud and forgeries, cultural

heritage offences and related legal and ethical challenges. It has been authored by prominent scholars, practitioners and journalists in the field and includes both overviews of particular art crime issues as well as regional and national case studies. It is one of the first scholarly books in the current art crime literature that can be utilised as an immediate authoritative reference source or teaching tool. It also includes a bibliographic guide to the current literature across interdisciplinary boundaries. Apart from legal, criminological, archeological and historical perspectives on theft, fraud and looting, this volume contains chapters on iconoclasm and graffiti, underwater cultural heritage, the trade in human remains and the trade, theft and forgery of papyri. The book thereby hopes to encourage scholars from a wider variety of disciplines to contribute their valuable knowledge to art crime research.

**The Origin of Copyright** Wenwei Guan 2021-07-20 Contemporary copyright was born in a heroic era of human history when technologies facilitated idea dissemination through the book trade reaching out mass readership. This book provides insights on the copyright evolution and how proprietary individual expression's copyright protection forms an integral part of our knowing in being, driven by the advances of technology through the proliferating trading frameworks. The book captures what is central in the process of copyright evolution which is an "onto-epistemological offset". It goes on to explain that copyright's protection of knowing in originality's delineation of expression and fair use/dealing's legitimization of unauthorized use and being are not isolatable, but rather mutually implicated. While the classic strict determinism has been subject to an onto-epistemological challenge, the book looks at the proliferation of global trade and advent of information technology and how they show us the beauty and possibility of intra-dependence between copyright authorship, entrepreneurship, and readership, which calls for a fresh copyright onto-epistemology. Building on its onto-epistemological critiques on the stakeholder, force, and mechanism of copyright evolution, the book helps readers understand why, not only copyright, but also law in general, and justice too, need to be onto-epistemologically balanced, as this is categorically imperative for

being, the fundamental law of nature.

**Therapeutic Recreation** Marcia Jean Carter 2019-06-17 For over 35 years, *Therapeutic Recreation: A Practical Approach* has provided an authoritative and engaging introduction to the field of therapeutic recreation. The Fifth Edition of Carter and Van Andel's well-regarded text extends this tradition of excellence, equipping a new generation of students with the theoretical foundations and practical methods they need to become successful practitioners. The authors present the fundamentals of recreational therapy practice from the perspective of a 21st-century health and human service profession: emphasizing evidenced-based practices and documented outcomes, supporting individual and community assets, promoting fiscal responsibility, and utilizing a strengths-based approach that focuses on an individual's capacities when developing a strategy to improve health status, quality of life, and functional abilities. Updates throughout reflect recent scholarship, revised standards and operational definitions, evidence-based literature to support interventions, and global health concerns. The critical component of documentation has been added to discussions of the APIE-D process, while chapters on neurodevelopmental disorders and behavioral and mental health issues incorporate the terminology and organization of the DSM-5. The latest edition also features expanded treatment of social issues and the adult-onset, chronic, and lifelong illnesses and disabilities associated with aging. This full-featured edition retains the student-oriented approach that makes it an ideal text for introductory courses. Illustrations, case studies, key terms, study questions, and practical exercises reinforce key concepts and offer opportunities to apply chapter content, while abundant field-based photographs illuminate the practice of recreational therapy.
