Who's Afraid of the Big Bad Book? Lauren Child 2012 A brilliantly original fairy-tale twist from Children's Laureate and Charlie & Lola creator Lauren Child.

Beirut Noir Īmān Ḥumaydān 2015 Part of Akashic's acclaimed Noir series. Beirut is a city of contradiction and paradox. It is at once urban and rural, a city of violence and forgiveness, memory and forgetfulness. This short story collection is a part of a vibrant, living recovery of Beirut, effected through the literary visions of its authors. The stories here show the vast maze of the city that strictly can't be found in tourist brochures.

King Peggy Peggienelene Bartels 2013-02-12 The charming real-life fairy tale of an American secretary who discovers she has been chosen king of an impoverished fishing village on the west coast of Africa. King Peggy chronicles the astonishing journey of American secretary, Peggienelene Bartels, who suddenly finds herself king to a town of 7,000 people on Ghana's central coast, half a world away. Upon arriving for her crowning ceremony in beautiful Otuam, she discovers the dire reality: there's no running water, no doctor, no high school, and many of the village elders are stealing the town's funds. To make matters worse, her uncle (the late king) sits in a morgue awaiting a proper funeral in the royal palace, which is in ruins. Peggy's first two years as king of Otuam unfold in a way that is stranger than fiction. In the end, a deeply traditional African town is uplifted by the ambitions of its decidedly modern female king, and Peggy is herself transformed, from an ordinary secretary to the heart and hope of her community.

Ivy Julie Hearn 2009-07-21 In mid-nineteenth-century London, destitute Ivy, whose main asset is her red hair, comes to the attention of a painter of the pre-Raphaelite school who, with the connivance of her family, is determined to make her his model and muse.

Wake Up, Woods Michael A. Homoya 2019-10 Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.
