[Move The Body, Heal The Mind](#) Jennifer Heisz 2022-03-08 A noted neuroscientist reveals groundbreaking research on how fitness and exercise can combat mental health conditions such as anxiety, dementia, ADHD, and depression, and offers a plan for improving focus, creativity, and sleep. Jennifer Heisz shares paradigm-shifting research on how exercise affects the brain, finding that intervals of intense workouts, or even leisurely walks, help stop depression and dementia, lessen anxiety and ADHD, and encourage better sleep, creativity, and resilience. Physical inactivity is the greatest risk factor contributing to dementia and anxiety—it's as much a factor as genetics. In addition, exercise's anti-inflammatory properties make it the most effective treatment strategy for those who are depressed and don't respond to anti-depressants. The book focuses on overcoming inertia; using exercise to help fight addictions; how we can improve our memory with fitness even as we age; and, importantly, how exercise can help us sleep better, improve focus, and be more creative. Included are easy to use plans for unique aerobic and resistance workouts designed to strengthen the brain.

Results Bruce A. Pasternack 2005-10-18 Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that's helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition ("That's me, that's my company") as you find out whether your organization is: • Passive-Aggressive ("everyone agrees, smiles, and nods, but nothing changes"): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall • Fits-and-Starts ("let 1,000 flowers bloom"): filled with smart people pulling in different directions • Outgrown ("the good old days meet a brave new world"): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole • Overmanaged ("we're from corporate and we're here to help"): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses • Just-in-Time ("succeeding, but by the skin of our teeth"): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest • Military Precision ("flying in formation"): executes brilliant strategies but usually does not deal well with events not in the playbook • Resilient ("as good as it gets"): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels For anyone who's ever said, "Wow, that's a great idea, but it'll never happen here" or "Whew, we pulled it off again, but I'm tired of all this sprinting," Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.

Your Evil Twin B. Sullivan 2004-08-25 The crime of the twenty-first century doesn't discriminate: ID theft has hit ordinary citizens and celebrities alike, from Oprah Winfrey to Steven Spielberg, and costs the economy \$50 billion a year. Your Evil Twin covers this exploding crime from every possible angle. It includes exclusive whodunit details from mastermind identity thieves who have pilfered money from half the members of the Forbes 400, as well as exclusive interviews with a myriad of criminals in the Internet's underground, such as Russian hackers who have extorted money from U.S. banks. The book also issues a scathing indictment of the credit granting industry, from credit card issuers to the secretive credit reporting agencies, who have misunderstood the crime from the start, have been slow to respond, and bear much of the responsibility for the epidemic. Finally, Bob Sullivan, author and identity theft expert, probes the tepid solutions now being cobbled together by the industry and government. Bob Sullivan (Snohomish, WA), senior technology writer for MSNBC.com, is the nation's leading journalist covering identity fraud. He has written more than 100 articles on the subject since 1996, and is a regular contributor to MSNBC, CNBC, NBC Nightly News, the Today show, and various local NBC affiliates. With colleague Mike Bruner, Sullivan received the prestigious 2002 Society of Professional Journalists Public Service Award for ongoing coverage of Internet fraud.

Backstage Wall Street: An Insider's Guide to Knowing Who to Trust, Who to Run From, and How to Maximize Your Investments

Joshua M. Brown 2012-03-27 Chances are you haven't been making the best investing decisions. Why? BECAUSE THAT'S HOW WALL STREET WANTS IT Wall Street is very good at one thing: convincing you to act against your own interests. And there's no one out there better equipped with the knowledge and moxie to explain how it all works than Josh Brown. A man The New York Times referred to as "the Merchant of Snark" and Barron's called "pot-stirring and provocative," Brown worked for 10 years in the industry, a time during which he learned some hard truths about how clients are routinely treated—and how their money is sent on a one-way trip to Wall Street's coffers. Backstage Wall Street reveals the inner workings of the world's biggest money machine and explains how a relatively small confederation of brilliant, sometimes ill-intentioned people fuel it, operate it, and repair it when necessary—none of which is for the good of the average investor. Offering a look that only a long-term insider could provide (and that only a "reformed" insider would want to provide), Brown describes: THE PEOPLE—Why retail brokers always profit—even if you don't THE PRODUCTS—How funds, ETFs, and other products are invented as failsafe profit generators—for

the inventors alone THE PITCH—The marketing schemes designed for one thing and one thing only: to separate you from your money It's that bad . . . but there's a light at the end of the tunnel. Brown gives you the knowledge you need to make the right decisions at the right time. Backstage Wall Street is about seeing reality for what it is and adjusting your actions accordingly. It's about learning who and what to steer clear of at all times. And it's about setting the stage for a bright financial future—your own way.

The CTO's Guide to Code Quality Mark Harrison 2019-10-07 This is not a book about algorithms. This is not a book about architecture. This is not a book about frameworks. This is not even a book about project management, agile or otherwise. This is a book about "the other things" that are important to writing and maintaining a sustainable code base. It's also a book about automation of parts of the programming process. If you're a CTO, the economic case for "code quality plus automation" is already strong, and getting stronger with each new iteration of hardware. If you're a programmer (maybe aspiring to be a CTO), it's about being able to concentrate on the stimulating, interesting, and creative parts of the craft, and getting the tedious parts done for you. Much of the book is about the general craft of programming and helping programmers become more productive, and should be useful no matter what programming language(s) you've chosen. However, I find it works better to illustrate principles with examples. And this edition of the book picks examples from the PHP programming language.

What If All the Kids Are White? Louise Derman-Sparks 2015-04-18 In this updated edition, two distinguished early childhood educators tackle the crucial topic of what White children need and gain from anti-bias and multicultural education. The authors propose seven learning themes to help young White children resist messages of racism and build identity and skills for thriving in a country and world filled with diverse ways of being. This compelling text includes teaching strategies for early childhood settings, activities for families and staff, reflection questions, a record of 20th- and 21st-century White anti-racism activists, and organizational and website resources. Bringing this bestselling guide completely up to date, the authors: Address the current state of racism and anti-racism in the United States, including the election of the first African American president and the rise of hate groups. Review child development research with a particular emphasis on recent observational studies that show how White children enact racial power codes. Discuss implementation of the core learning themes in racially diverse early childhood education settings, state standards for preschools and pre-K classrooms, and NCLB pressures on early childhood teaching. Update all resources and appendices, including reading lists and websites for finding resources and organizations engaged in anti-racism work. Louise Derman-Sparks is a past faculty member at Pacific Oaks College in Pasadena, California and the co-author of *Teaching/Learning Anti-Racism*. Louise presents conference keynotes, conducts workshops, and consults throughout the United States and internationally. Patricia G. Ramsey is Professor of Psychology and Education at Mount Holyoke College in South Hadley, Massachusetts and author of *Teaching and Learning in a Diverse World*. I especially appreciated the concrete suggestions and abundance of resources from two of early childhood education's most experienced teachers." —Paul Kivel, educator and author of *Uprooting Racism* and *I Can Make My World a Safer Place* "By starting with a strong sense of identity that is not race-based, children can move forward to cultivate an anti-racist culture. This book offers caregivers excellent frameworks and tools to make this happen." —TC Record **Backpacker** 2004-03 Backpacker brings the outdoors straight to the
