the Public Printer of the U.S.  
Government Printing Office is  
authorized to determine the  
form and style of Government  
printing. The Style Manual is  
the product of many years of  
public printing experience, and  
its rules are based on  
principles of good usage and  
custom in the printing trade.  
Essentially, the Style Manual is  
a standardization device  
designed to achieve uniform  
word and type treatment, and  
aiming for economy of word  
use. The Style Manual has  
served Federal printers since

1894, and with each new  
edition, the traditions of  
printing and graphic arts are  
carried forward into new  
technologies.

**U.S. Government Printing

Style Board 2010-09-01 This,  
the 30th edition of the "United  
States Government Printing  
Office Style Manual," is the  
first revision to this  
authoritative style manual  
since 2002. The "GPO Style  
Manual, as it is popularly  
known, is issued under the  
authority of section 1105 of  
Title 44 U.S.C., which requires  
the Public Printer, as head of  
the GPO to "determine the form  
and style in which the  
printing...ordered by a  
department is  
executed...having proper  
regard to economy,  
workmanship, and the  
purposes for which the work is  
needed." The Manual is  
prepared by the GPO Style

Board, composed of proofreading, printing, and Government documents specialists from within GPO, where all congressional publications, and many other key Federal Government documents are prepared. The first "GPO Style Manual" appeared in 1894. It was developed originally as a printer's stylebook to standardize word and type treatment and remains so today. Through successive editions, however, the "GPO Style Manual" has come to be widely recognized by writers and editors both within and outside the Federal Government as one of the most useful resources in the editorial arsenal. This new, revised version of the "GPO Style Manual" has been thoroughly redesigned to make it more modern and easier to read, and the content has been updated generally throughout in keeping with current usage.

**U. S. Government Printing Office Style Manual** United States. Government Printing Office 2009-03-31 By act of

Congress the Public Printer is authorized to determine the form and style of Government printing. The GPO Style Manual is the product of many years of public printing experience, and its rules are based on principles of good usage and custom in the printing trade. Editors and writers whose disciplines have taught them aspects of style different from rules followed in this Manual will appreciate the difficulty of establishing a single standard. The GPO Style Manual has served Federal printers since 1894, and with this 30th edition, the traditions of printing and graphic arts are carried forward in the 21st century. Essentially, the GPO Style Manual is a standardization device designed to achieve uniform word and type treatment, and it aims for economy of word use. Such rules as are laid down for the submission of copy to GPO point to the most economical manner for the preparation and typesetting of manuscript. Following such rules eliminates additional

chargeable processing by GPO. It should be remembered that the GPO Style Manual is primarily a GPO printer's stylebook. Easy rules of grammar cannot be prescribed, for it is assumed that editors are versed in correct expression. Likewise, decisions on design and makeup are best determined by the individual publisher to meet the needs of the intended audience. As a printer's book, this Manual necessarily uses terms that are obvious to those skilled in the graphic arts. Users of the GPO Style Manual should consider it as a general guide. Its rules cannot be regarded as rigid, for the printed word assumes many shapes and variations in type presentation. An effort has been made to provide complete coverage of those elements that enter into the translation of manuscript into type. The GPO Style Board made significant revisions to update this edition of the GPO Style Manual. The changes include redesigning the format to make it more modern and easier to read; replacing "What is GPO

Access?" with "GPO's Online Initiatives"; removing the atomic weights column from the Chemical Symbols table; expanding and updating time zone abbreviations; listing additional entries to the Post Office abbreviations; extensively reviewing the capitalization chapter to remove outdated entries and include new ones; realigning the abbreviations lists to create a new list of technical abbreviations and initialisms; updating old and adding new tables to the Useful Tables chapter; expanding military titles; creating new sample pages for the Reports and Hearings chapter; providing many URLs as references; and including many suggestions by users.

**Positions** Us Congress 2021-01-19 The Plum Book is published by the Senate Committee on Homeland Security and Governmental Affairs and House Committee on Oversight and Reform alternately after each Presidential election. The Plum Book is used to identify Presidential appointed and other positions within the Federal Government. The publication lists over 9,000 Federal civil service leadership and support positions in the legislative and executive branches of the Federal Government that may be subject to noncompetitive appointment. The duties of many such positions may involve advocacy of Administration policies and programs and the incumbents usually have a close and confidential working relationship with the agency head or other key officials. The Plum Book was first published in 1952 during the Eisenhower administration. When President Eisenhower took office, the Republican Party requested a

list of government positions that President Eisenhower could fill. The next edition of the Plum Book appeared in 1960 and has since been published every four years, just after the Presidential election.
